Techniques and Technologies Wiseman, Yair,Jiang, Song,2009-09-30 This book discusses non distributed operating systems that benefit researchers academicians and practitioners Provided by publisher *The Political Invention of Fragile States* Sonja Grimm,Nicolas Lemay-Hebert,Olivier Nay,2016-04-14 This book investigates the emergence the dissemination and the reception of the notion of state fragility It analyses the process of conceptualisation examining how the fragile states concept was framed by policy makers to describe reality in accordance with their priorities in the fields of development and security

Contributors investigate the instrumental use of the state fragility label in the legitimisation of Western policy interventions in countries facing violence and profound poverty. They also emphasise the agency of actors on the receiving end describing how the elites and governments in so called fragile states have incorporated and reinterpreted the concept to fit their own political agendas. A first set of articles examines the role played by the World Bank, the OECD, the European Union and the G7 in the transnational diffusion of the concept which is understood as a critical element in the new discourse on international aid and security. A second set of papers employs three case studies: Sudan, Indonesia and Uganda to explore the processes of appropriation, reinterpretation and the strategic use of the fragile state concept. This book was originally published as a special issue of *Third World Quarterly*. Recent Advances in Civil Engineering Job Thomas, Subha Vishnudas, 2024-02-12

The Civil Engineering department of Cochin University of Science and Technology organized an International Conference on Recent Advances in Civil Engineering (ICRACE) to disseminate the know how and challenges in this area among technocrats, practicing civil engineers, researchers etc. This conference has been conducted biennially since 2004. The conference holds an interactive platform to find solutions for various problems in the construction field.
