**The Global Testing Culture** William C. Smith,2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences      **Assessment in Primary and Middle Schools** Marten Shipman,2020-04-30 Effective evaluation of a pupil s performance and of resources available is a vital part of successful teaching Originally published in 1983 this non statistical guide aims to help teachers organise their work so as to improve their assessment of their pupils and also to analyse their own management efforts A model is developed showing how teachers can progressively structure their work to increase the objectivity of their assessment The use of published tests and the production of tests by teachers is covered but the focus throughout is on the part played by assessment in the organisation of learning The steps recommended are arranged so that the first yield the largest return But

none requires any statistical expertise or a large investment of time The second part of the book shows how schools can be evaluated by their staff school organisation staff development and the curriculum are given special attention in this step by step guide to effective and rewarding school assessment *The EAL Teaching book* Jean Conteh,2015-10-31 As the number of children for whom English is an Additional Language in schools increases how do teachers and trainees prepare to support them to succeed This text is their toolkit A complete guide to understanding learning from and teaching bilingual and EAL children in schools The text begins by asking who are EAL learners and challenges some of the misconceptions about this group It goes on to examine language in depth providing focused theory to help teachers and trainees better understand the wider context of children s needs This theory is supported by a wealth of information on practical teaching strategies and resources in the promoting learning section The text covers planning across the curriculum for EAL assessing EAL and bilingual learners and classroom organisation offering day to day practical support for teachers New to this second edition is a chapter on Using home languages and cultures in learning as well many new case studies from practising teachers offering insight and knowledge on teaching this particular group **Trends in Education** ,1978 **Dataproof Your School** Richard Selfridge,James Pembroke,2022-01-12 Your how to accessible guide on how to use data to support your students and your school Recognising Early Literacy Development Cathy Nutbrown,1997-08-28 This book examines the literacy development and assessment of children before the age of five years It is highly relevant to all those professionally involved in assessment Cathy Nutbrown explores the need for appropriate assessment practice to support teachers and illustrates the mismatch between the way teachers and researchers assess literacy The book is worth buying for the final chapter alone which provides an analysis of the newly developed Sheffield Early Literacy Development Profile The actual tasks are included in the appendices Thus Cathy Nutbrown does not leave us frustrated We are able to consider an ongoing assessment which is in tune with the best practice in teaching This is a research text which b **Literacy and Numeracy** Angela Cornforth,1998 Effective Learning and Teaching of Writing Gert Rijlaarsdam,Huub Bergh,Michel Couzijn,2007-11-23 Effective Learning and Teaching of Writing is a handbook on research on the effective teaching and learning of writing It is a reference for researchers and educators in the domain of written composition in education Effective Learning and Teaching of Writing covers all age ranges and school settings and it deals with various aspects of writing and text types Research methodology varies from experimental studies to reflective classroom practitioners research This new volume in the series Studies in Writing brings together researchers from all kinds of disciplines involved in writing research and countries in their endeavour to improve the teaching of written composition It is the result of co operation of researchers all over the world and shows that in spite of the differences in educational regions over the world research in writing shares similar problems and tries to find answers and generate new questions The body of knowledge in this volume will inspire researchers and teachers to improve research and practice **Teaching Pupils with Visual Impairment** Ruth Salisbury,2007-08-07 Bursting with
