Bradley,Robert Nash,2011-03-01 From the Foreword Robert and DeMethra's book *Me Searching and Re Search* has caught my fancy in a number of ways The book title cleverly captures what SPN is all about it is about self narratives the me search part and about scholarly meaning making the re search part This eye catching title also illuminates the authors intent to turn this seemingly intimidating method of self inquiry into something very accessible and doable Their jargon free language is friendly and inviting Although they don't intend to make their many methodological tips and tools too prescriptive their practical suggestions provided in this guide book are indeed helpful and useful I believe that Robert and DeMethra have demonstrated admirable talents as effective educators by unpacking the complex method of SPN writing into bite sized steps I am fully convinced that the steps will help both novices and the experienced researcher to reach the ultimate height of producing engaging and scholarly significant SPN's The book is also fun to read The authors intersperse throughout their own SPN's pedagogical insights from their doing and teaching and real life stories in order to illustrate the methodological process challenges and triumphs *Teaching Writing Primer* Paul L. Thomas,2005 Until a few decades ago student writing

stood as a distant third in the three R s Since the late 1970s however students have been asked to write more and teachers have been expected to teach writing more specifically In spite of this mandate however little has been done to prepare teachers for this shift in the curriculum This primer provides a brief history of the field as well as an exploration of what we now know about teaching Teachers entering the field as well as seasoned veterans will find how to foster student writers and to grow as writers themselves *Liberating Scholarly Writing* Robert Nash,2019-03-01 This book provides an alternative to the more conventional modes of qualitative and quantitative inquiry currently used in professional training programs particularly in education It features a very accessible presentation that combines application rationale critique and inspiration and is itself an example of this kind of writing It teaches students how to use personal writing in order to analyze explicate and advance their ideas And it encourages minority students women and others to find and express their authentic voices by teaching them to use their own lives as primary resources for their scholarship **Researcher's Guide:**
