The Flight from Desire R. Edwards, 2016-04-30 This book reformulates the master narrative of erotic discourse in medieval literature Individual chapters offer fresh readings of the nature and claims of erotic attachments in Abelard and Heloise Marie de France Jean de Meun Dante Boccaccio and Chaucer writers profoundly influenced by Augustine and Ovid

Misogyny, Misandry, and Misanthropy R. Howard Bloch, Frances Ferguson, 1989-01-01 These essays originally comprising an issue of *Representations* explore the relation between gender eroticism and violence through close analysis of a range of both high and popular cultural forms from R Howard Bloch on medieval theology to Carol Clover on contemporary slasher films Does misogyny differ from misandry Can author intention be separated from social context Do good women counterbalance or reenforce the misogyny of negative examples Is an obsession with women itself misogynistic These questions are approached from various angles by Joel Fineman Charles Bernheimer Jacqueline Lichtenstein Frances Ferguson Naomi Schor and Gillian Brown In sum the authors detail not only the ways in which gender is represented but also the changes to which representation subjects questions of sexual difference

An Introduction to Literature, Criticism and Theory Andrew Bennett, Nicholas Royle, 2014-07-10 Fresh original and compelling *An Introduction to Literature Criticism and Theory* is the essential guide to literary studies Starting at the beginning and concluding with the end the book covers topics that range from the familiar character narrative the author to the more unusual secrets pleasure ghosts Eschewing abstract

isms Bennett and Royle successfully illuminate complex ideas by engaging directly with literary works so that a reading of Jane Eyre opens up ways of thinking about racial difference whilst Chaucer Raymond Chandler and Monty Python are all invoked in a discussion of literary laughter Each chapter ends with a narrative guide to further reading and the book also includes a glossary and bibliography The fourth edition has been revised to incorporate two timely new chapters on animals and the environment A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader's eyes to the exhilarating possibilities of both reading and studying literature Eros Rosaura Martínez

Ruiz, 2021-10-05 Eros considers a promise left unfulfilled in Sigmund Freud's Beyond the Pleasure Principle Rosaura Martínez Ruiz argues that when the pleasure principle comes into contact with the death drive the human tendency toward aggression or cruelty the psyche can take detours that without going beyond the limit of the pleasure principle can nevertheless defer it Eros reflects on these deviations of the pleasure principle in the political sphere and in the intimate realm Following these erotic paths Martínez argues that the forces of the death drive can only be resisted if resistance is understood as an ongoing process In such an effort erotic action and the construction of pathways for sublimation are never ending ethical and political tasks We know that these tasks cannot be finally accomplished yet they remain imperative and undeniably urgent If psychoanalysis and deconstruction teach us that the death drive is insurmountable through aesthetic creation and political action we can nevertheless delay defer and postpone it Calling for the formation and maintenance of a community of mourning duelists this book seeks to imagine and affirm the kind of erotic battalion that might yet be mobilized against injustice This battalion's mourning Martínez argues must be ongoing open ended combative and tenaciously committed to the complexity of ethical and political life Dante's Masterplot and Alternative Narratives in the Commedia

Nicolò Crisafi, 2022-02-24 Dante's Masterplot and Alternative Narratives in the Commedia questions the familiar narrative arc at play in the writings of Dante Alighieri and opens his masterpiece to three alternative models that resist it Dante's masterplot is the teleological trajectory by which the poet subordinates the past to the authority of a new experience The book analyses the masterplot's workings in Dante's text and its role in the interpretation of the poem and it documents its overwhelming success in influencing readings of the Commedia over the centuries The volume then explores three competing narrative models that resist and counter its monopoly which are enacted by paradoxes alternative endings and parallel lives and the future By focusing on these non linear modes of storytelling and testing the limits of linear narration the book questions critical paradigms in the scholarship of the Commedia that favour a single normative master truth exposes their problematic authoritarian implications and highlights the manifold poetic theological and ethical tensions that are often neglected due to the masterplot's influence The new picture of a vulnerable author and open ended text that emerges from this study thus doubles as a metacritical reflection on the state of the field The book's impassioned argument is that alongside established notions of his trademark plurality of linguistic registers and styles Dante's narrative pluralism can and

should come to play a key role in contemporary and future readings of the Commedia

France Sara E. Black, 2022-09-15 In the nineteenth century drug consumption permeated French society to produce a new norm the chemical enhancement of modern life French citizens empowered themselves by seeking pharmaceutical relief for their suffering and engaging in self medication Doctors and pharmacists meanwhile fashioned themselves as gatekeepers to these potent drugs claiming that their expertise could shield the public from accidental harm Despite these efforts the unanticipated phenomenon of addiction laid bare both the embodied nature of the modern self and the inherent instability of the notions of individual free will and responsibility Drugging France explores the history of mind altering drugs in medical practice between 1840 and 1920 highlighting the intricate medical histories of opium morphine ether chloroform cocaine and hashish While most drug histories focus on how drugs became regulated and criminalized as dangerous addictive substances Sara Black instead traces the spread of these drugs through French society demonstrating how new therapeutic norms and practices of drug consumption transformed the lives of French citizens as they came to expect and even demand pharmaceutical solutions to their pain Through self experimentation doctors developed new knowledge about these drugs transforming exotic botanical substances and unpredictable chemicals into reliable pharmaceutical commodities that would act on the mind and body to modify pain sensation and consciousness From the pharmacy counter to the boudoir from the courtroom to the operating theatre from the battlefield to the birthing chamber Drugging France explores how everyday encounters with drugs reconfigured how people experienced their own minds and bodies
