Politicians On An Island English Edition:

Political Essay on the Island of Cuba Alexander von Humboldt, 2011-05-15 The research Alexander von Humboldt amassed during his five year trek through the Americas in the early 19th century proved foundational to the fields of botany and geology But his visit to Cuba yielded observations that extended far beyond the natural world This title presents a physical and cultural study of the island nation

Politics, Policy and Power in Translation History Lieven D'hulst, Carol O'Sullivan, Michael Schreiber, 2016-09-09 The contributions in this book are partly based on papers given at the 7th congress of the European Society for Translation Studies held at the University of Mainz in Gernersheim For this publication all papers have undergone a review process In order to illustrate the variety of contents and approaches involved in the concepts of translation policy and politics the chapters are organised thematically rather than chronologically The objective in doing so was to show how policies influence a wide array of discursive practices The first group of articles is concerned with the policy of translating and interpreting in power settings A second group deals with translation policies as applied to a wide corpus of literary texts A third group is devoted to the policies of media translation

Minghi, 2014-10-03 This volume is about border landscapes with emphasis on the varying impact that political decision making and ideological differences can have on the environment at border locations for example This volume by political geography experts from across the globe provides important insights specifically into border landscapes and so serves to further our understanding of aspects of cultural landscapes

The Politics of Translation and Transmission Hanna Orsolya Vincze, 2012-03-15 This book is a study on the beginnings of Hungarian political thought as set out by two 17th century mirrors of princes the first attempts at political theorising in the Hungarian vernacular The unlikely source text for these treatises was an advice book by King James the VIth and Ist to his son Basilikon Doron As an analysis of the translation and re reading of a widely circulated text by the king of England and Scotland the book is also a study in early modern cross cultural dialogue situated in the context of recent discussions on transculturalism and more specifically on the intellectual connections between Britain and the world The various contemporary translations of King James s book to diverse contexts and languages enlisted it to different agendas making it difficult to cast the process of translation and transmission as a story of a reception of an idea They rather call attention to the importance of the local stakes involved in translation How ideas originally formulated in a Scottish context came to be re articulated in a Central European one is a

particularly interesting story that provides us with a possibility to paint a picture of the various political languages in use at the time from divine right arguments to elements of civic humanism neostoicism political Calvinism in its magisterial version Old Testament biblicism and millenarianism The Tribune Almanac and Political Register Horace Greeley, John Fitch Cleveland, F. J. Ottarson, Alexander Jacob Schem, Edward McPherson, Henry Eckford Rhoades, 1893 **The Iran-UAE Gulf Islands Dispute** Charles L.O. Buder, Luciana T. Ricart, 2018-05-15 In *The Iran UAE Gulf Islands Dispute* Charles Buder and Luciana Ricart take the reader on a journey through centuries of Gulf history and evolving principles of international law on territorial disputes to reach conclusions over the rightful sovereign of three Gulf islands Abu Musa and the Tunbs claimed by both Iran and the United Arab Emirates Drawing on a wide range of scholarly works and archival documents from sources as diverse as the Dutch East India Company the Ottoman Empire and the British Government Buder and Ricart analyze historical events from antiquity up to modern times Ultimately the authors reach conclusions on the ownership of the islands under international law which challenge the positions of both parties *Shakespeare and the Cultural Politics of Conversion* Stephen Wittek, 2022-09-17 This book takes a close look at Shakespeare's engagement with the flurry of controversy and activity surrounding the concept of conversion in post Reformation England For playhouse audiences during the period conversional thought encompassed a markedly diverse fluid amalgamation of ideas practices and arguments centered on the means by which an individual could move from one category of identity to another In an analysis that includes chapter length readings of *The Taming of the Shrew* *Henry IV Part I* *The Merchant of Venice* *Othello* and *The Tempest* the book argues that Shakespearean drama made a unique and substantive intervention in public discourse surrounding conversion and continues to speak meaningfully about conversional experience for audiences in the present age It will be of particular benefit to students and scholars with an interest in theatrical history performance theory theology cultural studies race studies and gender studies Bringing Stalin Back In Todd H. Nelson, 2019-10-16 While Joseph Stalin is commonly reviled in the West as a murderous tyrant who committed egregious human rights abuses against his own people in Russia he is often positively viewed as the symbol of Soviet era stability and state power How can there be such a disparity in perspectives Utilizing an ethnographic approach extensive interview data and critical discourse analysis this book examines the ways that the political elite in Russia are able to control and manipulate historical discourse about the Stalin period in order to advance their own political objectives Appropriating the Stalinist discourse they minimize or ignore outright crimes of the Soviet period and instead focus on positive aspects of Stalin's rule especially his role in leading the Soviet Union to victory in the Second World War Advancing the concepts of preventive and complex co-optation this book analyzes how elites in Russia inhibit the emergence of groups that espouse alternative narratives while promoting message friendly groups that are in line with the Kremlin's agenda Bringing the resources of the state to bear the Russian elite are able to co-opt multiple avenues of discourse formulation and dissemination Elite sponsored discourse positions Stalin as the symbol of a strong centralized state

that was capable of great achievements despite great cost enabling favorably portrayals of Stalin as part of a tradition of harsh but effective rulers in Russian history such as Peter the Great This strong state discourse is used to legitimize the return of authoritarianism in Russia today *Navigating Islands and Continents* Cynthia G. Franklin, Ruth Hsu, Suzanne Kosanke, 2000-01-01 This is a collection of essays poems and interviews that explores the interrelations among Pacific Asian and continental U S identities and literatures **Cultural Politics of Translation** Alamin Mazrui, 2016-02-19 This book is the first full length examination of the cultural politics at work in the act of translation in East Africa providing close critical analyses of a variety of texts that demonstrate the myriad connections between translation and larger socio political forces Looking specifically at texts translated into Swahili the book builds on the notion that translation is not just a linguistic process but also a complex interaction between culture history and politics and charts this evolution of the translation process in East Africa from the pre colonial to colonial to post colonial periods It uses textual examples including the Bible the Qur an and Frantz Fanon's *Wretched of the Earth* from five different domains religious political legal journalistic and literary and grounds them in their specific socio political and historical contexts to highlight the importance of context in the translation process and to unpack the complex relationships between both global and local forces that infuse these translated texts with an identity all their own This book provides a comprehensive portrait of the multivalent nature of the act of translation in the East African experience and serves as a key resource for students and researchers in translation studies cultural studies post colonial studies African studies and comparative literature Shakespeare, Politics, and Italy Mr Michael J Redmond, 2013-04-28 The use of Italian culture in the Jacobean theatre was never an isolated gesture In considering the ideological repercussions of references to Italy in prominent works by Shakespeare and his contemporaries Michael J Redmond argues that early modern intertextuality was a dynamic process of allusion quotation and revision Beyond any individual narrative source Redmond foregrounds the fundamental role of Italian textual precedents in the staging of domestic anxieties about state crisis nationalism and court intrigue By focusing on the self conscious overt rehearsal of existing texts and genres the book offers a new approach to the intertextual strategies of early modern English political drama The pervasive circulation of Cinquecento political theorists like Machiavelli Castiglione and Guicciardini combined with recurrent English representations of Italy to ensure that the negotiation with previous writing formed an integral part of the dramatic agendas of period plays **Alexander von Humboldt's Transatlantic Personae** Vera Kutzinski, 2014-06-11 Who was Alexander von Humboldt Was he really a lone genius Was he another European apologist for colonialism in the Americas or the father of Latin American independence Was he a roving Romanticist or did his sensibilities belong to the Enlightenment Naturalist philosopher historian and proto sociologist to name just some of the fields to which he contributed Humboldt is impossible to contain in a single identity or definition His voluminous writings range across so many different fields of knowledge that his scholarly scientific personae multiplied even during his lifetime and they have continued to

proliferate since his death in 1859 A household word throughout the nineteenth century Humboldt was eventually eclipsed by Charles Darwin whose own travels had been motivated by Humboldt s and disappeared from view for much of the twentieth century notably in the United States The essays in this collection testify to the renewed interest that Alexander von Humboldt s multi faceted work is inspiring in the twenty first century especially among cultural and literary historians from both sides of the Atlantic This book was originally published as a special issue of Atlantic Studies **Department of State**
