**FDI, Technology and Innovation** N. S. Siddharthan, K. Narayanan,2020-03-13 This book

concentrates on major changes that are now taking place in the fields of technology foreign direct investment FDI trade and development strategies with a particular focus on India Arguably these changes are likely to differ from those that the world has experienced over the past few decades in particular now that many countries have globalised their economies The book begins by reviewing the changing pattern of FDI flows and technologies among developed and emerging economies before identifying the determinants of this change by presenting specific studies on Indian industries It then addresses key questions such as How are knowledge spillover mechanisms operationalised and what are the implications of the internationalisation of the IPR process The role of FDI is also analysed in order to make policy recommendations for fostering innovation in emerging economies like India The respective chapters examine the process through which technological paradigm and trajectory shifts are taking place the factors that facilitate such shifts the changing pattern of FDI and the shifting focus of international trade and development strategies four broad themes that are interrelated and mutually reinforcing The book offers important takeaways for all social scientists technologists and business schools interested in Indian studies it will also benefit researchers whose work involves development economics industrial organisation and technology and the economy society interface
