New Jersey Register ,2014-04 *The New Jersey State Constitution* Robert F. Williams,Ronald K. Chen,2023 The New Jersey State Constitution is a thoroughly revised new edition that provides an extensive historical account and constitutional analysis of the state s governing charter In addition to an overview of New Jersey s constitutional history it provides an in depth section by section analysis of the entire constitution detailing the many significant changes that have been made since its initial drafting This treatment along with a table of cases index and bibliography is an essential resource for students scholars and practitioners of New Jersey s constitution State constitutions perform different functions and contain different provisions from the more familiar U S Constitution The book first outlines the historical development of New Jersey s state constitution from 1776 to the present and explains the highlights of the process of state constitutional development leading to the current New Jersey constitution Next each section of the current constitution is analyzed including its origins general intent and purpose and important judicial interpretations illustrating the types of situations in which the section can come into play including references to key academic analysis of each section Careful explanation is provided with illustrations from cases of the complex and evolving relationship between rights guaranteed by the U S Constitution and rights guaranteed by the New Jersey constitution In many instances New Jersey s rights can be more protective than those included in the Federal Constitution Finally the book provides a thorough bibliographical essay reviewing the evolution of the New Jersey constitution **The Performative State** Iza Yue Ding,2022-09-15 What does the state do when public expectations exceed its governing capacity The Performative State shows how the state can shape public perceptions and defuse crises through the theatrical deployment of language symbols and gestures of good governance performative governance Iza Ding unpacks the black box of street level bureaucracy in China through ethnographic participation in depth interviews and public opinion surveys She demonstrates in vivid detail how China s environmental bureaucrats deal with intense public scrutiny over pollution when they lack the authority to actually improve the physical environment They assuage public outrage by appearing responsive benevolent and humble But performative governance is hard work Environmental bureaucrats paradoxically work themselves to exhaustion even when they cannot effectively implement environmental policies Instead of achieving performance legitimacy by delivering material improvements the state can shape public opinion through the theatrical performance of goodwill and sincere effort The Performative State also explains when performative governance fails at impressing its audience and when governance becomes less performative and more substantive Ding focuses on Chinese evidence but her theory travels comparisons with Vietnam and the United States show that all states democratic and authoritarian alike engage in performative governance *Globalization and Public Sector Reform in China* Kjeld Erik Brødsgaard,2014-04-24 This book analyses public sector reform comprehensively in all parts of China s public sector government bureaucracy public service units and state owned enterprises It argues that reform of the public sector has

become an issue of great concern to the Chinese leaders who realize that efficient public administration is key to securing the regime's governing capacity and its future survival. The book shows how thinking about public sector reform has shifted in recent decades from a quantitative emphasis on small government which involved the reduction in size of what was perceived as a bloated bureaucracy to an emphasis on the quality of governance which may result in an increase in public sector personnel. The book shows how although Western ideas about public sector reform have had an impact, Chinese government continues to be best characterized as state capitalism with the large state-owned enterprises continuing to play an important and increasing role in the economy and in business. However, state-owned enterprises no longer provide care for large numbers of people from the cradle to the grave, finding an alternative efficient way of delivering basic welfare and health care is the big challenge facing China's public sector.

The Politics and Governance of Blame Matthew Flinders, Gergana Dimova, Markus Hinterleitner, R. A. W. Rhodes, R. Kent Weaver, 2024-06-24. From coping with Covid-19 through to managing climate change, from Brexit through to the barricading of Congress, from democratic disaffection to populist pressures, from historical injustices to contemporary social inequalities and from scapegoating through to sacrificial lambs, the common thread linking each of these themes and many more is an emphasis on blame. But how do we know who or what is to blame? How do politicians engage in blame avoidance strategies? How can blaming backfire or boomerang? Are there situations in which politicians might want to be blamed? What is the relationship between avoiding blame and claiming credit? How do developments in relation to machine learning and algorithmic governance affect blame-based assumptions? By focusing on the politics and governance of blame from a range of disciplines, perspectives and standpoints, this volume engages with all these questions and many more. Distinctive contributions include an emphasis on peacekeeping and public diplomacy on source

credibility and anthropological explanations on cultural bias and on expert opinions on polarisation and de politicisation and on trust and post truth politics With contributions from the world s leading scholars and emerging research leaders this volume not only develops the theoretical disciplinary empirical and normative boundaries of blame based analyses but it also identifies new research agendas and asks distinctive and original questions about the politics and governance of blame

Rhodes, 2016-03-31 This volume explores new directions of governance and public policy arising both from interpretive political science and those who engage with interpretive ideas It conceives governance as the various policies and outcomes emerging from the increasing salience of neoclassical and institutional economics or neoliberalism and new institutionalisms In doing so it suggests that the British state consists of a vast array of meaningful actions that may coalesce into contingent shifting and contestable practices Based on original fieldwork it examines the myriad ways in which local actors civil servants mid level public managers and street level bureaucrats have interpreted elite policy narratives and thus forged practices of governance on the ground This book will be of key interest to scholars students and practitioners of governance and public policy

Judicial Dis-Appointments Mitchel de S. -O. -l'E. Lasser, 2020-10-11 In 2009 and 2010 the European Court of Justice and the European Court of Human Rights underwent significant reforms to their respective judicial appointments processes Though very different judicial institutions they adopted very similar and rather remarkable reforms each would now make use of an expert panel of judicial notables to vet the candidates proposed to sit in Luxembourg or

Strasbourg Once established these two vetting panels then followed with actions no less extraordinary they each immediately took to rejecting a sizable percentage of the judicial candidates proposed by the Member State governments What had happened Why would the Member States of the European Union and of the Council of Europe which had established judicial appointments processes that all but ensured themselves the unfettered power to designate their preferred judges to the European courts and who had zealously maintained and exercised that power over the course of some fifty years suddenly decide to undermine their own capacity to continue to do so This book sets out to solve this mystery Its point of departure is that it would be a mistake to view the 2009 2010 establishment of the two vetting panels in isolation from other European judicial developments Though these acts of institutional creation are certainly the most notable recent developments they actually represent but the crowning achievement of a process of European judicial appointments reform that has been running unremittingly since the 1990 s This longstanding and tenacious movement has actually triggered a broad set of interrelated debates and reforms encompassing not only judicial appointments per se but also a much wider set of issues including judicial independence judicial quality judicial councils the separation of powers judicial gender equity and more
