This third edition includes a new introduction which features additional information on current trends in reading, including the rise of Black Asian and LGBTQIA publishing, the continuing importance of certain genres, and up-to-date trends in publishing, bookselling, library borrowing, and literacy. There are sections on writing for children, on the importance of audiobooks and book clubs, self-published bestsellers, as well as many new entries to the present day, including bestselling authors such as David Walliams, Peter James, George R R Martin, and far less well-known authors whose books sell in their thousands. This is the essential guide to best-selling books, authors, genres, publishing, and bookselling since 1900, providing a unique insight into more than a century of entertainment and opening a window into the reading habits and social life of the British from the death of Queen Victoria to the Coronavirus Pandemic.

The Publishers' Circular and the Publisher & Bookseller, 1938 **Gender and Justice** Ngaire Naffine, 2017-07-05 The leading articles on gender and justice within Anglo-American legal theory are assembled in this volume. The essays are drawn primarily from the writings of lawyers working in the common law tradition, and they mainly examine the justice of legal institutions. Due to the close kinship between political and legal theories of justice, the book also includes a selection of the work of the more prominent political theorists of justice and gender.
