Nokia Network Security Solutions Handbook Syngress, 2002-12-03 The Nokia Network Security Solutions Handbook introduces readers to both the basics and the finer points of administering configuring and securing the Nokia IP series hardware appliances It introduces readers to the different hardware models and covers the features associated with each Installation and setup are covered in detail as well as installation and configuration of the Check Point firewall on the Nokia system Readers will learn basic system administration security and monitoring before moving into advanced system administration concepts as well as learning how to use Nokia s command line interface Routing configurations and the different protocols involved are covered in detail finishing off with a comprehensive discussion of the High availability configuration that is Nokia s strength The appendices include coverage of the UNIX basics which lie at the heart of the IPSO operating system and a review of the other packages available for Nokia systems such as Perl and Bash The only book dedicated to coverage of the latest Nokia hardware and software offerings from the SOHO appliances to the enterprise class IP700 series with an emphasis on administering and securing these systems Long term market potential The operating system referenced will be Nokia IPSO 3 4 1 which has an interface that has been specifically tailored to make upgrading to newer versions of IPSO simple and intuitive In addition the underlying interface is UNIX based which has been a constant for over 30 years Up to the Minute Web based Support Once they have absorbed the content of the book readers can receive up to the minute links white papers and analysis for one year at solutions syngress com *Economics: The User's Guide* Ha-Joon Chang, 2015-10-20 From the internationally bestselling author and prizewinning economist a highly original guide to the global economy In his bestselling 23 Things They Don t Tell You About Capitalism Cambridge economist Ha Joon Chang brilliantly debunked many of the predominant myths of neoclassical economics Now in an entertaining and accessible primer he explains how the global economy actually works in real world terms Writing with irreverent wit a deep knowledge of history and a disregard for conventional economic pieties Chang offers insights that will never be found in the textbooks Unlike many economists who present only one view of their discipline Chang introduces a wide range of economic theories from classical to Keynesian revealing how each has its strengths and weaknesses and why there is no one way to explain economic behavior Instead by ignoring the received wisdom and exposing the myriad forces that shape our financial world Chang gives us the tools we need to understand our increasingly global and interconnected world often driven by economics From the future of the Euro inequality in China or the condition of the American manufacturing industry here in the United States *Economics The User s Guide* is a concise and expertly crafted guide to economic fundamentals that offers a clear and accurate picture of the global economy and how and why it affects our daily lives **Risk** General Stanley McChrystal, Anna Butrico, 2021-10-05 From the bestselling author of Team of Teams and My Share of the Task an entirely new way to understand risk and master the unknown Retired four star general Stan McChrystal has lived a life associated with the

deadly risks of combat From his first day at West Point to his years in Afghanistan to his efforts helping business leaders navigate a global pandemic McChrystal has seen how individuals and organizations fail to mitigate risk Why Because they focus on the probability of something happening instead of the interface by which it can be managed In Risk General McChrystal offers a battle tested system for detecting and responding to risk Instead of defining risk as a force to predict McChrystal and coauthor Anna Buttrick show that there are in fact ten dimensions of control we can adjust at any given time Drawing on examples ranging from military history to the business world and offering practical exercises to improve preparedness McChrystal illustrates how these ten factors are always in effect and how by considering them individuals and organizations can exert mastery over every conceivable sort of risk that they might face We may not be able to see the future but with McChrystal s hard won guidance we can improve our resistance and build a strong defense against what we know and what we don t
