

- *Essential resources* — identifies any specialist resources needed to allow learners to generate the evidence required for each unit. The centre will be asked to ensure that any requirements are in place when it seeks approval from Edexcel to offer the qualification.
- *Indicative reading for learners* — provides a short list of learner resource material that benchmark the level of study.

## Assessment

The assessment for the Edexcel Level 5 BTEC Diploma in Teaching in the Lifelong Learning Sector is criterion referenced and is based on the achievement of specified criteria. Each of the units contain contextualised pass criteria for unit assessment.

The Diploma in Teaching in the Lifelong Learning Sector units are internally assessed. Centre assessment will be externally examined by the external examiner, who is appointed annually by Edexcel. The overall grading for Certificate in Teaching in the Lifelong Learning Sector is a pass, based upon the successful completion of the units and eight practical teaching observations.

Learners must pass all the mandatory units as well as the required number of option units to achieve sufficient credits for the Edexcel Level 5 BTEC Diploma in Teaching in the Lifelong Learning Sector.

This is demonstrated by the ability to apply the knowledge and understanding in a practical teaching context. The emphasis is on the ability to develop and apply the skills and knowledge required in the successful delivery of learning.

Centres are encouraged to use a variety of assessment methods, including assignments, case studies and work-based assessments, along with projects, performance observation and time-constrained assessments. Practical application of the assessment criteria in a realistic scenario should be emphasised and maximum use made of practical work experience.

Assignments constructed for assessment by centres should be valid, reliable and fit for purpose, building on the application of the assessment criteria. Care must be taken to ensure that assignments used for assessment of a unit cover all the criteria for that unit as set out in the *Assessment criteria* section. It is advised that the criteria which an assignment is designed to cover should be clearly indicated in the assignment to (a) provide a focus for learners (for transparency and to help ensure that feedback is specific to the criteria) and (b) assist with internal standardisation processes. Tasks and activities should enable learners to produce evidence that directly relates to the specified criteria. It is essential that the external examiner is given the opportunity to review and comment on assessment activities **before** they are given out to learners.

It is essential that internal verification begins with the assessment being agreed and negotiated by those involved with the delivery before issuing it to learners. Assessment activities being used for the first time must be sent to the external examiner for approval before use, to ensure they address the appropriate level, meet identified assessment criteria and provide clear opportunities to link practice and research.
