Private Island Why Britain Now Belongs To Someone Else:

Private Island James Meek, 2015-06-02 The essential public good that Margaret Thatcher Tony Blair and now Cameron sell is not power stations or trains or hospitals It s the public itself it s us In a little over a generation the bones and sinews of the British economy rail energy water postal services municipal housing have been sold to remote unaccountable private owners often from overseas In a series of brilliant portraits the award winning novelist and journalist James Meek shows how Britain s common wealth became private and the impact it has had on us all from the growing shortage of housing to spiralling energy bills Meek explores the human stories behind the incremental privatization of the nation over the last three decades He shows how as our national assets are sold ordinary citizens are handed over to private tax gatherers and the greatest burden of taxes shifts to the poorest In the end it is not only public enterprises that have become private property but we ourselves Urgent powerfully written and deeply moving this is a passionate anatomy of the state of the nation of what we have lost and what losing it cost us the rent we must pay to exist on this private island [A Sharing Economy](#) Stewart Lansley, 2016-03-16 A Sharing Economy proposes radical new ways to close the UK s growing income gap and spread social opportunities A new social wealth fund would boost economic and social investment and simultaneously strengthen the public finances and offer a powerful antidote to austerity **Handbook of Victims and Victimology** Sandra

Walklate, 2017-07-14 This second edition of the Handbook of Victims and Victimology presents a comprehensively revised and updated set of essays bringing together internationally recognised scholars and practitioners to offer substantial research informed overviews within their specialist fields of investigation This handbook is divided into five parts with each part addressing a different theme within victimology Part I offers a scene setting exploration of new developments in the field enduring issues that remain relatively unchanged and the gaps and traps within the contemporary victimological agenda Part II examines of the complex dimensions to victim experiences as structured by gender age ethnicity sexuality and intersectionality Part III reflects on the problems and possibilities of formulating policy responses in the light of the changing appreciation of the nature and extent of victimhood Part IV focused on the value of a comparative lens and the problems and possibilities of victim policies when seen through this lens explored along three geographical axes Europe Australia and Asia Part V considers other ways of thinking about who counts as a victim and what counts as victimhood and extends the boundaries of the victimological imagination outward Building on the success of the previous edition this book provides an international focus on cutting edge issues in the field of victimology Including brand new chapters on intersectionality child victims sexuality hate crime and crimes of the powerful this handbook is essential reading for students and academics studying victims and victimology and an essential reference tool for those working within the victim support environment

Handbook of Neoliberalism Simon Springer, Kean Birch, Julie MacLeavy, 2016-07-07 Neoliberalism is easily one of the most powerful discourses to emerge within the social sciences in the last two decades and the number of scholars who write

about this dynamic and unfolding process of socio spatial transformation is astonishing Even more surprising though is that there has until now not been an attempt to provide a wide ranging volume that engages with the multiple registers in which neoliberalism has evolved The Routledge Handbook of Neoliberalism seeks to offer a comprehensive overview of the phenomenon of neoliberalism by examining the range of ways that it has been theorized promoted critiqued and put into practice in a variety of geographical locations and institutional frameworks With contributions from over 50 leading authors working at institutions around the world the volumes seven sections will offer a systematic overview of neoliberalism s origins political implications social tensions spaces natures and environments and aftermaths in addressing ongoing and emerging debates The volume aims to provide the first comprehensive overview of the field and to advance the established and emergent debates in a field that has grown exponentially over the past two decades coinciding with the meteoric rise of neoliberalism as a hegemonic ideology state form policy and program and governmentality It includes a substantive introductory chapter and will serve as an invaluable resource for undergraduates graduate students and professional scholars alike

Python beyond Python Paul N. Reinsch, B. Lynn Whitfield, Robert G. Weiner, 2017-07-14 This collection of original interdisciplinary essays addresses the work of Monty Python members beyond the comedy show films and live performances These men are prolific creators in a variety of artistic realms beyond the confines of the comedy troupe Their work as individuals before and after coming together as Monty Python demonstrates a restless curiosity about culture that embraces absurdity but seldom becomes cynical Python members collectively and individually create unique approaches to theatre film video games comic books business training videos and more Python

Beyond Python increases our understanding of this often neglected work and the meanings of Monty Python *TOTalitarian ARTs* Mark Epstein, Fulvio Orsitto, 2017-03-07 This collection represents a tool to broaden and deepen our geographical institutional and historical understanding of the term totalitarianism Is totalitarianism only found in other societies How come then it emerged historically in ours first How come it developed in so many countries either in Western Europe Italy Germany Portugal and Spain or under implicit Western forms of coercion Latin America How do relations between individual s mass and the visual arts relate to totalitarian trends These are among the questions this book asks about totalitarianism The volume does not impose a one size fits all interpretation but opens new spaces for debate on the connection between the visual arts and mass culture in totalitarian societies From the Mediterranean to Scandinavia from Western Europe to Latin America from the fascism of the early 20th century to contemporary forms of totalitarian control and from cinema to architecture the chapters included in TotArt bring expertise historical sensibility and political awareness to bear on this varied range of phenomena This collection offers international contributions on visual performing and plastic arts The chapters range from examination of comics to study of YouTube videos and American newsreels from Italian Spanish Portuguese and Uruguayan cinemas to more contemporary American films and TV series from painters and sculptors to the study of urban spaces **The Gove Legacy** M. Finn, 2015-02-20 Michael Gove was unquestionably a pivotal figure in British educational reform during his time as the coalition s Secretary of State for Education This team of experts drawn from academia think tanks and trade unions offer an unrivalled early assessment of the impact of Gove and his reforms on the British educational landscape *In Whose Interest?* Ray Jones, 2018-12-05 As the government continues to open up child protection and social work in England to a commercial market place what is the social cost of privatising public services And what effect has the failure of previous privatisations had on their provision This book by best selling author and expert social worker Ray Jones is the first to tell the story of how crucial social work services including those for families and children are now being out sourced to private companies Detailing how the failures of previous privatisations have led to the deterioration of services for the public it shows how this trend threatens the safety and wellbeing of vulnerable children and disabled adults *Taking Back Control* Reece Garcia, 2022-06-28 Taking Back Control dispels the myth that an endemic of overwork debt the underfunding of public services gross inequality and poor mental health are unavoidable through a provocative critique of work money politics and the media **Globalization and Sovereignty** John Agnew, 2017-12-15 This provocative and important text offers a new way of thinking about sovereignty both past and present Distinguished geographer John Agnew boldly challenges the widely popular story that state sovereignty is in worldwide eclipse in the face of the overwhelming processes of globalization He argues that this perception relies on ideas about sovereignty and globalization that are both overstated and misleading Agnew contends that sovereignty state control and authority over space is not necessarily neatly contained in state by state territories nor has it ever been so Yet the dominant image of globalization is the

replacement of a territorialized world by one of networks and flows that know no borders other than those that define the Earth itself In challenging this image Agnew first traces the ways in which it has become commonplace He then develops a new way of thinking about the geography of effective sovereignty and the various geographical forms in which sovereignty actually operates in the world offering an exciting intellectual framework that breaks with the either/or thinking of state sovereignty versus globalization

The New Enclosure Brett Christophers, 2019-01-29 How public land has been stolen from us Much has been written about Britain's trailblazing post 1970s privatization program but the biggest privatization of them all has until now escaped scrutiny the privatization of land Since Margaret Thatcher took power in 1979 and hidden from the public eye about 10 per cent of the entire British land mass including some of its most valuable real estate has passed from public to private hands Forest land defence land health service land and above all else local authority land for farming and school sports for recreation and housing has been sold off en masse Why How And with what social economic and political consequences The New Enclosure provides the first ever study of this profoundly significant phenomenon situating it as a centrepiece of neoliberalism in Britain and as a successor programme to the original eighteenth century enclosures With more public land still slated for disposal the book identifies the stakes and asks what if anything can and should be done

British Imperialism P.J. Cain, A. G. Hopkins, 2016-03-02 A milestone in the understanding of British history and imperialism this ground breaking book radically reinterprets the course of modern economic development and the causes of overseas expansion during the past three centuries Employing their concept of gentlemanly capitalism the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties and how these ties were undone to produce the post colonial world of today Containing a significantly expanded and updated Foreword and Afterword this third edition assesses the development of the debate since the book's original publication discusses the imperial era in the context of the controversy over globalization and shows how the study of the age of empires remains relevant to understanding the post colonial world Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century to post imperial Britain today *British Imperialism 1688-2015* is the perfect read for all students of imperial and global history

London's Aylesbury Estate Michael Rymyn, 2020-09-18 This book looks beyond the Aylesbury's public face by examining its rise and fall from the perspective of those who knew it based largely on the oral testimony and memoir of residents and former residents youth and community workers borough Councillors officials police officers and architects What emerges is not a simple story of definitive failures but one of texture and complexity struggle and accord family and friends and of rapidly changing circumstances The study spans the years 1967 to 2010 from the estate's ambitious inception until the first of its blocks were pulled down It is a period rarely dealt with by historians of council housing who have typically confined themselves to the years before or after the 1979 watershed As such it demonstrates how shifts in housing

policy and broader political economic and social developments came to bear on a working class community for good and more especially for ill Scottish Coal Miners in the Twentieth Century Jim Phillips,2019-06-26 No detailed description available for Scottish Coal Miners in the Twentieth Century

Our Lives in Their Portfolios Brett Christophers,2024-08-13 All hail the new masters of Capitalism How asset managers acquired the world Banks have taken a backseat since the global financial crisis over a decade ago Today our new financial masters are asset managers like Blackstone and BlackRock And they don t just own financial assets The roads we drive on the pipes that supply our drinking water the farmland that provides our food energy systems for electricity and heat hospitals schools and even the homes in which many of us live all now swell asset managers bulging investment portfolios As the owners of more and more of the basic building blocks of everyday life asset managers shape the lives of each and every one of us in profound and disturbing ways In this eye opening follow up to *Rentier Capitalism* Brett Christophers peels back the veil on asset manager society Asset managers he shows are unlike traditional owners of housing and other essential infrastructure Buying and selling these life supporting assets at a dizzying pace the crux of their business model is not long term investment and careful custodianship but making quick profits for themselves and the investors that back them In asset manager society the natural and built environments that sustain us become one more vehicle for siphoning money from the many to the few

Gentrification as a Global Strategy Abel Albet,Núria Benach,2017-07-14 This book memorializes the work of one of Geography s leading critical thinkers and a public intellectual known world wide Neil Smith It presents a rich collection of insights from leading international and interdisciplinary experts drawing on Neil Smith s ideas for inspiration and debate This book demonstrates the relevance and usefulness *All Our Welfare* Peter Beresford,2016-01-29 The UK welfare state is under sustained ideological and political attack It has also been undermined by accusations of paternalism and past failures to engage with the very people it is intended to help This unique book is the first to critique the past present and future welfare state from a participatory perspective Peter Beresford champion of user involvement draws on pioneering theories and practice of welfare service user movements to offer a blueprint for a new participatory social policy He controversially challenges orthodox social policy and the limitations of both Fabian and Neo liberal perspectives in engaging people to improve their own welfare drawing on service users own ideas and experience including fascinating vignettes from his own family s experience to demonstrate the value of user knowledge Filling a much needed gap in the literature this accessible text will provide a great introduction for students and a road map for practitioners of an alternative vision for a future participatory and sustainable social policy It will also command much wider interest from everyone concerned with how we look after each other in future in society **COVID-19 and Social Determinants of Health** Adrian Bonner,2023-01-20 Health and socio economic consequences of the COVID 19 pandemic have been exacerbated by central government imposed austerity budgeting by local authorities and the health service This book part of the Social Determinants of Health series

extends the ideas developed in the previous volumes by reviewing the impact of COVID 19 on local and national governance from the perspectives of public health social care and economic development Drawing on case studies from across the UK and beyond it explores the pandemic and other wicked issues including climate change homelessness unemployment and domestic abuse through the lens of relationalism and proposes necessary system changes **The Health Debate** Hunter, David J.,2016-01-13 Health care systems everywhere face multiple pressures from changing demography the rise of non communicable disease the growing demand on health services and limited resources at a time of austerity Focusing on the British NHS from a political science perspective this second edition of this best selling book offers a fresh look at how it is coping with such pressures The book explores the complexity of health policy and health services offering a critical perspective on concerns including integrated care the return of public health to local government and moves to devolve health services to local level Crucially it offers a critique of the market style changes introduced by the Coalition government between 2010 and 2015 Students of health care and health policy policy makers and public health and health care professionals will find this lively and accessible reassessment of NHS reforms invaluable
