## 5 Easy Steps to Choose the Best Problem to Solve

The biggest difficulty my students have in problem solution essays is choosing the right topic. Often, the first problem they think of is either too small of a problem for a whole essay or too big of a problem for them to solve in a short paper. Following the five steps below will guide you to choose a topic problem that:

- Is something that is important to you.
- Is a problem you know a lot about.
- Is a problem you can create a reasonable solution for.

### 1: Brainstorm groups you belong to

The easiest problems to write about are ones you have experienced. If there is something that bugs you, or if you've ever thought, "I have a better idea of how to do that!" you have a good start. To find your topic, start by making a list of different groups or organizations you belong to. Think about:

1. Where you live.
2. Hometown.
3. Activities, clubs, and hobbies you participate in.
4. School groups.
5. Sports groups.
6. Places you've worked.
7. Groups of people you may identify with, such as male/female, oldest/youngest child in a family, ethnic background, tall/short etc.
8. Stereotypes: consider what group others might place you into and the stereotypes of that group.

### 2. Think About Problems

Now take your list of groups and brainstorm different problems you see in these groups. The problems might be caused by:

1. The organization of the group
2. The leadership
