

WRITING A PROCESS ESSAY

Process essays are basically concerned with how something works or how to make something. These kinds of compositions are generally organized in simple sequential order. Here are five techniques that are especially useful in organizing compositions dealing with processes:

1. **Specify** in as few words as possible the **major divisions or steps** you will discuss.
2. Use **topic headings** to define and limit sections of your paper.
3. Use a **combination** of 1 and 2: Open with a list of main ideas and repeat them as topic headings.
4. Use a **vivid image** to help the reader see your subject.
5. Use a **series of questions** to control brief passages.

C. Conclusion

D. Summarize the main divisions. (optional)

E. Provide interesting, satisfying closure. (ending).

Transitions which serve as bridges between ideas, may be placed in five categories:
