Seventy-seven-year-old Angie had been a widow for 20 years. She was fiercely independent and had run her small farm with minimal assistance since her husband died. In the last few years, her children noticed that Angie had become increasingly forgetful. First, she began forgetting the birthdays of her children and grandchildren, which was highly unlike her. Recently, she forgot that she was supposed to visit her son and his family and failed to show up at the designated time. Last week when her daughter visited, she found a teakettle on the stove that had burned dry when Angie forgot she had started it. Yesterday, her daughter received a call from Angie's nearest neighbor, who had found Angie wandering around in his field unprotected from the cold. At Angie's children's request, the family physician admitted Angie to the hospital, where she was placed on the geropsychiatric unit.

Armstrong, 2013-06-25 To much of the world North Korea is an impenetrable mystery its inner workings unknown and its actions toward the outside unpredictable and frequently provocative Tyranny of the Weak reveals for the first time the motivations processes and effects of North Korea s foreign relations during the Cold War era Drawing on extensive research in the archives of North Korea s present and former communist allies including the Soviet Union China and East Germany Charles K Armstrong tells in vivid detail how North Korea managed its alliances with fellow communist states maintained a precarious independence in the Sino Soviet split attempted to reach out to the capitalist West and present itself as a model for Third World development and confronted and engaged with its archenemies the United States and South Korea From the invasion that set off the Korean War in June 1950 to the collapse of the Soviet Union in 1991 Tyranny of the Weak shows how despite its objective weakness North Korea has managed for much of its history to deal with the outside world to its maximum advantage Insisting on a path of self reliance since the 1950s North Korea has continually resisted pressure to change from enemies and allies alike A worldview formed in the crucible of the Korean War and Cold War still maintains a powerful hold on North Korea in the twenty first century and understanding those historical forces is as urgent today as it was sixty years ago

History of Korea Homer B. Hulbert, 2023-12-17 Homer B Hulbert's *The History of Korea* serves as a comprehensive exploration of the Korean peninsula's socio-political evolution, cultural heritage, and historical trials. Embassies in the East J. E. Hoare, J. E. Hoare, 2013-10-31 This text traces the history of three Far Eastern embassies through the vicissitudes of war and revolution against the background of an apparent steady decline of Western influence in Asia. Dr. Hoare tracks the key events and people shaping the British view of Asia. Key dramatic personae are Sir Harry Parkes, British Minister to Japan, China, and Korea; Sir Ernest Satow, the student interpreter who became Minister in Tokyo and Peking; and in more recent years, Sir Charles Eliot, lover of big cars and scholar of Buddhism. This book will interest those wishing to know more about all aspects of Britain in East Asia, whether in the tense years of the Boxer troubles in China, during the wartime repatriation of Britons from Japan, and the Japanese Empire in the traumas of the Korean War, or during the excess of China's Cultural Revolution.

Modernising the People's Liberation Army James Char, 2024-06-03 This volume examines the progress made by the Chinese military, the People's Liberation Army (PLA), as it strives to meet its commander in chief's directive to transform itself into a more capable fighting force. The book tracks the reforms undertaken

by the PLA in meeting its commander in chief's grand objectives set at the 2015 Central Military Commission Reform Work Meeting for China's armed forces to transform themselves into a more professional and modern military. Focusing on those changes since late 2016 at corps level and below, the first and second sections of the volume document the subsequent force structure and operational changes to the PLA's four conventional services and two newly established PLA branches: the Strategic Support Force and Joint Logistic Support Force. To that end, the contributors examine the reforms promulgated by the Chinese high command and measure them against observable developments in the PLA's power projection capabilities. In view of how the instrumentalization of military power is writ large in Beijing's strategic calculus and in regional hotspot issues, the final part of the book also provides pathbreaking insights into two critical but not so well understood phenomena: the now regular PLA aerial activities in the Taiwan Strait and the PLA Navy's submarine operations in the South China Sea. This book will be of much interest to students of East Asian security, Chinese politics, and military and strategic studies in general.

Bartley, Sylvia Erickson Bartley, 2015-11-30 *Eclipse of the Assassins* investigates the sensational 1984 murder of Mexico's most influential newspaper columnist Manuel Buendía and how that crime reveals the lethal hand of the U.S. government in Mexico and Central America during the final decades of the twentieth century.

Revolutionaries for the Right Kyle Burke, 2018-04-13 Freedom fighters. Guerrilla warriors. Soldiers of fortune. The many civil wars and rebellions against communist governments drew heavily from this cast of characters. Yet from Nicaragua to Afghanistan, Vietnam to Angola, Cuba to the Congo, the connections between these anticommunist groups have remained hazy and their coordination obscure. Yet as Kyle Burke reveals, these conflicts were the product of a rising movement that sought paramilitary action against communism worldwide. Tacking between the United States and many other countries, Burke offers an international history not only of the paramilitaries who started and waged small wars in the second half of the twentieth century but of conservatism in the Cold War era. From the start of the Cold War, Burke shows, leading U.S. conservatives and their allies abroad dreamed of an international anticommunist revolution. They pinned their hopes to armed men, freedom fighters who could unravel communist states from within. And so they fashioned a global network of activists and state officials, guerrillas and mercenaries, ex-spies and ex-soldiers to sponsor paramilitary campaigns in Asia, Africa, and Latin America. Blurring the line between state-sanctioned and vigilante violence, this armed crusade helped radicalize right-wing groups in the United States while also generating new forms of privatized warfare abroad.
