Reactions to Revolutions Ulrich Broich, 2007 The outbreak of revolution in Paris in 1789 forced Britain into a political and military conflict that had a profound impact on politics economy public discourse and cultural life well into the 19th century The essays collected here examine the various responses to the revolution and the significant changes wrought within Britain by the events Some essays discuss the ideological divisions within Britain and Ireland Others take a closer look at the media and the debate on the press and reinvestigate responses to the revolution by prominent contemporaries such as William Godwin Dugald Stewart and William Wordsworth *Revolutions of the End of Time: Apocalypse, Revolution and Reaction in the Persianate World* Saïd Amir Arjomand, 2022-12-05 As with all general history Islamic history is conventionally approached in terms of evolutionary trends and continuities This study in historical sociology of the millennial or Mahdist movements and their long term impact in contrast focuses on abrupt discontinuities in the form of revolutions as apocalyptic breaks and on the reaction of the ruling authorities as counter revolution aiming at routinizing these charismatic irruptions into history by absorbing their impact within the prevalent structure of authorities and thereby re establishing the continuity that is taken for granted by future historians For the framework of this analysis of the dynamics of revolution and reaction within a single world region it chooses the civilizational zone defined by its cultural unity as the Persianate world

Introductory Guide Eileen Ka-May Cheng, 2012-03-08 What is historiography asked the American historian Carl Becker in 1938 Professional historians continue to argue over the meaning of the term This book challenges the view of historiography as an esoteric subject by presenting an accessible and concise overview of the history of historical writing from the Renaissance to the present Historiography plays an integral role in aiding undergraduate students to better understand the nature and purpose of historical analysis more generally by examining the many conflicting ways that historians have defined and approached history By demonstrating how these historians have differed in both their interpretations of specific historical events and their definitions of history itself this book conveys to students the interpretive character of history as a discipline and the way that the historian's context and subjective perspective influence his or her understanding of the past

Coloured Revolutions and Authoritarian Reactions Evgeny Finkel, Yitzhak M. Brudny, 2014-07-17 Between 2000 and 2005 colour revolutions swept away authoritarian and semi authoritarian regimes in Serbia Georgia Kyrgyzstan and Ukraine Yet after these initial successes attempts to replicate the strategies failed to produce regime change elsewhere in the region The book argues that students of democratization and democracy promotion should study not only the successful colour revolutions but also the colour revolution prevention strategies adopted by authoritarian elites Based on a series of qualitative country focused studies the book explores the whole spectrum of anti democratization policies adopted by autocratic rulers and demonstrates that authoritarian regimes studied democracy promotion techniques used in various colour revolutions and focused their prevention strategies on combatting these techniques The book proposes a new typology of authoritarian reactions to the challenge of democratization and argues that the specific mix of policies and rhetoric adopted by each authoritarian regime depended on the perceived intensity of threat to regime survival and the regime's perceived strength vis vis the democratic opposition This book was published as a special issue of Democratization **Study**
