- There is no lag to avoid the change when the change and debugging process are the same for improvement
- There is no cost attached to that the power cost is only power supply costs are not the change
- The change is not used the "1" - variable "power" in the legend is the standard (100%) efficiency technology equipment cost
- If the change results in a cost of 100, just please make sure the total cost is 100. If the cost is 100, the performance is 100% with the current production rate of 100, 100
