

What Scripps Study Space Is Right For You?

Sallie Tiernan Fieldhouse Pool

In sunny Southern California there is no shortage of Vitamin D, and the Sallie Tiernan Field House pool makes you feel like you're on vacation while annotating your readings for the week. The deck overlooking the pool has shaded tables, couches, and lawn chairs for working and relaxation, but some students instead elect to sit on the chairs poolside while completing a reading. If you work well with a little background noise, the Tiernan pool is a cheerful place to get some work done, with the added benefit of a little dip to cool off during your Pascadero time breaks.

Denison Library Courtyard

The courtyard outside the Ella Strong Denison Library houses multiple tables for students to find a relatively sequestered work space. Though there is still some foot traffic from people entering the library, the courtyard remains tranquil. Potted citrus trees provide dappled sunlight and the iron arm chairs are more comfortable than they appear. The courtyard is a great spot to enjoy good weather while finding a refuge to be productive.

Do you prefer to work indoors or outdoors?

Start

Do you like to study in a bright and airy or dark and cozy room?

Denison Library

Denison Library is an obvious recommendation for a study space on campus. The tables nestled between the dark wood bookshelves, cozy sofas, and chairs often house students sitting cross-legged, pouring over readings or furiously typing up a paper. Though the Library has limited hours, Denison is best for when you need to feel inspired to focus and work, as it is a space that lends itself to academic productivity.

Do you prefer a bustling or quiet atmosphere?

The Motley Coffeehouse

The Motley Coffeehouse is a lively, well-loved locale to lock in and do some work. The baristas always serve up solid, if not entertaining, tunes in addition to the signature Motley brews and teas. The plush armchairs, rooey booths, and expansive tables provide an array of seating options, but be quick to grab a seat as the space fills up on most weekends.

Faculty Lounge

The faculty lounge, located on the second floor of the Humanities Building, is bright with natural light and lofty ceilings. It boasts multiple seating areas of comfortable couches and a large dining-esque table in the center. As the name suggests, the room is lined by faculty offices, so while students are welcome there to work or for office hours, it is important to be respectful and remain quiet.

A Guide to the Scripps Institution of Oceanography Contracts and Grants Office Records (1959-1996) Kimberly M. Owens, 1997 **Careers in Music Libraries IV** Misti Shaw, Susannah Cleveland, 2022 Music librarianship offers meaningful and fulfilling work to people from varied backgrounds. As libraries adapt to everchanging economic, demographic, cultural, and technological landscapes, it is essential for music library workers to possess a keen understanding of what is needed to remain relevant and to thrive. Whether contemplating a new career in music libraries, expanding liaison responsibilities in music seeking paths for professional development, or feeling eager to reinvigorate a music library career, readers can turn to this book to gain practical and approachable guidance to succeed. In this substantially expanded edition of *Careers in Music Librarianship III*, experienced expert professionals have updated their pragmatic advice and insight from the previous edition to reflect the realities and challenges of today's landscape. Since music library work takes place in both traditional and non-traditional settings, this edition incorporates advice on a wide range of topics not covered in earlier editions, including paraprofessional employment, liaison work, archives settings, and transitions from performance-based careers. Geared toward workers in music libraries rather than simply to those who are or aspire to be librarians, this volume is intended to support people on an array of potential career paths. All who work in music libraries will find both inspiration and straightforward guidance in this indispensable book. *Functional Performance in Older Adults* Bette R. Bonder, Vanina Dal Bello-Haas, 2017-12-04 Support the very best health, well-being, and quality of life for older adults. Jones, Stephen P. Mayfield, 2016-02-16 *Our Energy Future* is an introductory textbook for a college course in energy production, alternative and renewable fuels, and related issues involved in building a sustainable energy future. Our society is consuming energy at an alarming rate as trends in energy consumption continue to rise. Jones and Mayfield explore the creation and history of fossil fuels, their impact on the environment, and how they have become critical to our society. They warn that continuing fuel usage patterns could permanently damage our environment. Jones and Mayfield also outline how the adoption of sustainable biofuels will be key to our future energy stability. They discuss a number of renewable energy options and then discuss different biofuel feedstocks and their potential as replacements for petroleum-based products. This book emphasizes the importance of continued scientific, agricultural, and engineering development while outlining the political and environmental challenges that are coupled with a complete shift from fossil fuels to renewable energy and biomass. *Our Energy Future* is an excellent, accessible resource for undergraduate students studying biofuels and bioenergy.
