The text below is about the eco-tourism industry in developing countries. Read it carefully and answer Questions 14 – 21.

- 1 Tourism might not be the ultimate answer to poverty and economic woes, but it is a major boon for places around the world that suffer from a lack of natural resources or industry. For instance, tourism is a hugely important industry in the Caribbean. Without flocks of resort-goers, nations in this part of the world would have to rely more heavily on agriculture, leaving their economies at the mercy of the fluctuating prices of commodities like coffee, sugar and bananas. 5
- 2 What about eco-tourism? Is low-impact, nature-oriented travel as viable a moneymaking option as standard resort tourism? The eco-tourism industry's growth depends on practicality as much as it does on the will to conserve the environment. Ultimately, success will not only be measured by the acres of forest saved, but also by the amount of money earned and the number of jobs created. The International Ecotourism Society (TIES) recognises the human element in eco-tourism. It defines the catchphrase "eco-tourism" as "responsible travel to natural areas that conserves the environment and improves the well-being of the local people". 10 15
- 3 Many places, including Dominica, are considered eco-tourism destinations and have experienced varying levels of success. All these places are seeking to answer the same question—can we make eco-tourism one of the most important industries in our country? 20
- 4 Dominica has turned to eco-tourism because it lacks the geography that makes other Caribbean destinations so popular among tourists seeking a warm-weather vacation. The postcard-like beach scenes of Jamaica and the Bahamas are absent from Dominica. The island has a rocky coast and, though its waters are clear and ideal for diving, it has never developed a mainstream resort industry. Proclaiming itself the Nature Island, Dominica has instead advertised its natural, undeveloped beauty. Hot springs and waterfalls, dense jungles and a rugged coastline draw more adventurous travellers and nature lovers rather than the suntan-and-piña-colada crowd who are drawn to the Bahamas. 25 30
- 5 However, the number of visitors to Dominica is not substantial enough to make nature tourism the backbone of the nation's economy. Dominica remains one of the least visited nations in the eastern Caribbean. Banana cultivation is still a major source of income for many islanders. This industry can be harmed by weather and frequent price fluctuations on the international commodities market. 35
