NATIONALISTS OVERTHROW QING DYNASTY**Who was Sun Yixian?**

The early 20th century was a time of change in China. Many Chinese resented the great control that foreign nations had over their economy. Some wanted to modernize China. They hoped it could regain power.

One of the groups involved in this push was the **Kuomintang**, or Nationalist Party, led by **Sun Yixian**. In 1912, the Kuomintang overthrew the Qing dynasty. A republic was established, and Sun was made the president.

Sun wanted political and economic rights for all Chinese people. He also wanted an end to the foreign control of China. But Sun did not have the support of the military. Six weeks later, he turned over his presidency to Yuan Shikai, a powerful general. Yuan became a military dictator. After he died in 1916, civil war broke out. World History: Patterns of Interaction McDougal-Littell Publishing Staff, 2004-03 Rising China and Its Postmodern Fate, Volume II Charles Horner, 2015-12-22 In Volume II of his study Rising China and Its Postmodern Fate Charles Horner continues his examination of how China's continuously changing view of its modern historical experience is also changing its understanding of its long intellectual and cultural tradition. He reflects on China's current rise not as an anomaly but as part of a long tradition of dramatic transformations and he therefore looks at many different Chinas as they interact with various world systems and ever-changing trends. He sees China's formation of its future Grand Strategy as a creative intellectual activity which draws on the strategic imagination that can be found in history, literature, art, architecture, and urban planning. The empire's influence upon the quarter of the planet it occupied and its gravitational influence upon the world outside it has been profound, from the spread of Christianity by missionaries to the shaping of international law. Even today, 1 in 3 people drive on the left-hand side of the road, an artifact of the British empire. Yet Britain's idea of its imperial history and the world's experience of it are two very different things. Following in the footsteps of his bestselling book *Empireland: How Imperialism Has Shaped Modern Britain*, *Empireworld* explores the ways in which the British Empire has come to shape the modern world. Sanghera visits Barbados where he uncovers how Caribbean nations are still struggling to emerge from the disadvantages sown by transatlantic slavery. He examines how large charities like Save the Children and the World Bank still see the world through the imperial eyes of their colonial founders and how the political instability of nations such as Nigeria, for instance, can be traced back to tensions seeded in their colonial foundations. And from the British Empire's role in the transportation of 12.5 million Africans during the Atlantic slave trade to the 35 million Indians who died due to famine caused by British policy, the British Empire, as Sanghera reveals, was responsible for some of the largest demographic changes in human history. Economic, legal, and political systems across the world continue to function along the lines originally drawn by the British Empire, and cultural, sexual, psychological, linguistic, demographic, and educational norms originally established by imperial
