What Does Art Mean Now asks and answers fundamental questions about the nature of aesthetic experience and role of the arts in contemporary society The Modern Age Romanticism and beyond viewed art as something transcending and separated from life and usually something encountered in museums or classrooms Nowadays however art tends to be defined not by a commonly agreed upon standard of quality or by its forms such as painting and sculpture but instead by political and ideological criteria So how do we connect with the works in museums whose point was precisely that they stood apart from such considerations Can we and should we be educated to appreciate art and what does it do for us anyway What are we to make of the so different newer works installations performances excerpts from the world held to be art that increasingly make it into museums Adopting a subjectivist approach this book argues that in the absence of a universal judgment or standard of taste the experience of art is one of freedom The arts give us the means to conceptualize our lives showing us ourselves as we are and as we might wish or not wish to be as well as where we have been and where we are going It will
