**The Chill** Scott Carson,2023-02-07 A supernatural force set in motion a century ago threatens to devastate New York City in this spine tingling national bestseller that grips from the first page Stephen King 1 New York Times bestselling author

Far upstate in New York's ancient forests a drowned village lays beneath the dark still waters of the Chalewaukee reservoir. Early in the 20th century the town was destroyed for the greater good bringing water to the millions living downstate. Or at least that's what the politicians from Manhattan insisted at the time. The local families settled there since America's founding were forced from their land but some didn't leave. Now a century later the repercussions of human arrogance are finally making themselves known. An inspector assigned to oversee the dam dangerously neglected for decades witnesses something inexplicable. It turns out that more than the village was left behind in the waters of the Chill when it was abandoned. A dark prophecy remained too and the time has come for it to be fulfilled for sacrifices must be made. And as the dark waters begin to inexorably rise the demand for a fresh sacrifice emerges from the deep. Unputdownable and suspenseful. The Chill is an eerie dive into the murky depths of the supernatural. A story that has you looking back over your shoulder on every page.
