Samsung PL70 camera for amateur photographers  
The Samsung PL70 is one of the most full-featured compact digital cameras on the market today," said Choong Hyun Hwang, vice president of Strategic Marketing at Samsung Digital Imaging Company. "Typically, consumers may feel like they have to sacrifice functionality in order to find a digital camera priced within their means, but that's not the case with the new Samsung PL70. Samsung is giving consumers the ability to experience the latest and most advanced digital imaging technology, helping them step up to a more robust, feature-packed digital compact camera which will help take their photography to a whole new level."

Samsung PL70 features Face Recognition technology  
The Samsung PL70 features advanced Face Recognition technology that automatically stores up to 10 preferred faces to the camera's internal memory. While taking a portrait, the PL70 will automatically recognize if one of the user's preferred faces is in the frame and identify them as a priority for focus and exposure. Users can also save time sorting through their photos and instead search for photos that contain a specific face up to 15. Samsung's Perfect Portrait System can also be found on the new Samsung PL70, which includes Face Detection, Smile Shot, Blink Detection and Beauty Shot.

Samsung PL70 video function  
The new Samsung PL70 digital camera offers consumers advanced video recording options. With the PL70, users can record 720p, high-definition video which can be played on an HDTV through an optional HDMI adaptor sold separately. The camera also utilizes H.264 compression, an advanced codec that allows users to record video for longer periods of time.
