Bismarck's Time and Afterwards Munroe Smith,1915 A Revolution in Favor of Government Max M. Edling,2008-07-08

What were the intentions of the Founders Was the American constitution designed to protect individual rights To limit the powers of government To curb the excesses of democracy Or to create a robust democratic nation state These questions echo through today's most heated legal and political debates In this powerful new interpretation of America's origins Max Edling argues that the Federalists were primarily concerned with building a government that could act vigorously in defense of American interests The Constitution transferred the powers of war making and resource extraction from the states to the national government thereby creating a nation state invested with all the important powers of Europe's eighteenth century fiscal military states A strong centralized government however challenged the American people's deeply ingrained distrust of unduly concentrated authority To secure the Constitution's adoption the Federalists had to accommodate the formation of a powerful national government to the strong current of anti statism in the American political tradition They did so by designing a government that would be powerful in times of crisis but which would make only limited demands on the citizenry and have a sharply restricted presence in society The Constitution promised the American people the benefit of government without its costs Taking advantage of a newly published letterpress edition of the constitutional debates A Revolution in Favor of Government recovers a neglected strand of the Federalist argument making a persuasive case for rethinking the formation of the federal American state **Oswaal UPSC CSE Mains 11 Years Solved Papers**

The Rhetoric of Heroic Expectations Justin S. Vaughn, Jennifer Mercieca, 2014-01-30 Campaign rhetoric helps candidates to get elected but its effects last well beyond the counting of the ballots this was perhaps never truer than in Barack Obama's 2008 campaign Did Obama create such high expectations that they actually hindered his ability to enact his agenda Should we judge his performance by the scale of the expectations his rhetoric generated or against some other standard The Rhetoric of Heroic

Expectations Establishing the Obama Presidency grapples with these and other important questions Barack Obama's election seemed to many to fulfill Martin Luther King Jr's vision of the long arc of the moral universe bending toward justice And after the terrorism war and economic downturn of the previous decade candidate Obama's rhetoric cast broad visions of a change in the direction of American life In these and other ways the election of 2008 presented an especially strong example of creating expectations that would shape the public's views of the incoming administration The public's high expectations in turn become a part of any president's burden upon assuming office The interdisciplinary scholars who have contributed to this volume focus their analysis upon three kinds of presidential burdens institutional burdens specific to the office of the presidency contextual burdens specific to the historical moment within which the president assumes office and personal burdens specific to the individual who becomes president
