Painless Reading Comprehension Barron's Educational Series, Darolyn "Lyn" Jones, 2021-06-01 Learning at home is now the new normal. Need a quick and painless refresher? Barron's Painless books make learning easier while you balance home and school. Reading comprehension gets easier as students learn what kind of reader they are, discover how to keep facts in their head, and much more. Titles in Barron's extensive Painless Series cover a wide range of subjects as they are taught at middle school and high school levels. Perfect for supporting Common Core Standards, these books are written for students who find the subjects somewhat confusing or just need a little extra help. Most of these books take a lighthearted, humorous approach to their subjects and offer fun exercises including puzzles, games, and challenging Brain Tickler problems to solve. Bonus Online Component includes additional games to challenge students including Beat the Clock, a line match game, and a word scramble.

Greetings! from Carl's Corner, Texas Lianne Cain, 2000-12 An ordinary Friday night out for dinner and dancing turned into a seven-month journey that crisscrossed America. When a school teacher met a truck driver, worlds collided. What began as an overnight trip to Texas ended at the Alamo, but the road led through Texas, New Mexico, Arizona, Ohio, Pennsylvania, and twenty-seven other states. The ride began in January and didn't end until July.

Economics Made Fun N. Aydinonat, Jack Vromen, 2017-10-02 Best-selling books such as *Freakonomics* and *The Undercover Economist* have paved the way for the flourishing economics made fun genre. While books like these present economics as a strong and explanatory science, the ongoing economic crisis has exposed the shortcomings of economics to the general public. In the face of this crisis, many people, including well-known economists such as Paul Krugman, have started to express their doubts about whether economics is a success as a science. As well as academic papers, newspaper columns with a large audience have discussed the failure of economics to predict and explain ongoing trends. The emerging picture is somewhat confusing. Economics made fun books present economics as a method of thinking that can successfully explain everyday and freaky phenomena. On the other hand, however, economics seems to fail in addressing and explaining the most pressing matters related to the field of economics itself. This book explores the confusion created by this contradictory picture of economics. Could a science that cannot answer its own core questions really be used to explain the logic of everyday life? This book was originally published as a special issue of the *Journal of Economic Methodology*.

Graphic Novels and Comics in the Classroom Carrye Kay Syma, Robert G. Weiner, 2013-06-24 Sequential art combines the visual and the narrative in a way that readers have to interpret the images with the writing. Comics make a good fit with education because students are using a format that provides active engagement. This collection of essays is a wide-ranging look at current practices using comics and graphic novels in educational settings, from elementary schools through college. The contributors cover history, gender, the use of specific graphic novels, practical application, and educational theory. Instructors considering this book for use in a course may request an examination copy here.

Communities James A. Banks,2000 Provides geography literature and history adventures *English Language Teaching Textbooks* N. Harwood,2013-11-29 English language teaching textbooks or coursebooks play a central role in the life of a classroom This edited volume contains research informed chapters focusing on analysis of textbook content how textbooks are used in the classroom and textbook writers accounts of the materials writing design and publishing process

Understanding Multimodal Discourses in English Language Teaching Textbooks Christopher A. Smith,2022-08-11 Textbooks are indispensable components and in some case the cornerstones of the mission of English Language Teaching ELT However they are artefacts of a pedagogical culture that rarely echo the concerns of their most prolific consumers teachers and students This book offers a useful framework for evaluating ELT textbooks from a critical discourse perspective one that is based on sound current research but also offers practical guidance to teachers Building

from a foundational understanding of ELT textbooks the author presents a systematic procedure to critically analyze their multimodal discourse examine how those discourses are negotiated between teachers and students in class and measure how those consumers privately value the lessons The book provides teachers with the tools they need to select and adapt materials based on critical multimodal discourse analysis where not only the text but the pictures websites audio visual elements too are subjected to a process which can reveal underlying ideologies assumptions omissions and reifications The triangulated approach demonstrated in a series of vignettes featuring Korean university students and native English speaking instructors can inform textbook choice instigate change and inspire lesson re contextualization to best suit the needs of its primary consumers

The New Politics of the Textbook Heather Hickman, Brad J. Porfilio, 2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and disability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production

Textbooks? Not Yet—We Must Teach Character First! Leah C. Tolbert, 2011-01-31 Looking for a better way Well here it is This book is so practical it is scary Really Whether you are a first year teacher seasoned teacher an administrator or still in college trying to decide if the education route is for you this book works The author gives clearly detailed ideas guiding you through the first days and weeks of school She provides tables and charts to further articulate ideas about how to make the concepts work She does not leave anything out The title may seem a bit unorthodox but there is a reason for that Textbooks and information alone do not engage our children in the classroom or in life When we teach them how to develop their individual and collective sense of character first they become engaged in learning and never look back This book is a must read for any organization on the cutting edge of education today

COVID-19 and the Educational Response: New Educational and Social Realities

Jane McIntosh Cooper, Leslie Michel Gauna, Christine Beaudry, 2022-01-31

Textbook of Medical Ethics Erich H. Loewy, 2013-06-29

When physicians in training enter their clinical years and first begin to become involved in clinical decision making they soon find that more than the technical data they had so carefully learned is involved Prior to that time of course they were aware that more than technology was involved in practicing medicine but here for the first time the reality is forcefully brought home It may be on the medical ward when a patient or a patient s relatives ask that no further treatment be given and that the patient be allowed to die it may be in ob gyn when a 4 or 5 month pregnant lady with two other children and just deserted by her husband pleads for an abortion it may be in the outpatient setting where patients unable to afford enough to eat cannot afford to buy antibiotics for their sick child or provide him or her with the recommended diet Whatever the setting students soon find themselves confronted with problems in which an answer is not given by the technical possibilities alone indeed students may have to face situations in which all things considered the use of these technical possibilities seems ill advised But choices need to be made Some of us may choose to hide behind a mastery of technology

Lessons in Learning, E-Learning, and Training Roger C. Schank, 2005-02-14 This collection of essays offer a perspective on what today s instructional designers and trainers do why they do it and how they do it The three main points covered are what can and cannot be taught how people think and learn and what technology can really effectively provide In addition each essay offers practical guidance and includes a summary of ideas tips and techniques things to think about checklists and other job aids

Funny Thing, Getting Older Michael Morpurgo, 2025-10-30 A beautiful thoughtful book that brims with joy KATE MOSSE Our master storyteller JOANNA LUMLEY In *Funny Thing Getting Older* one of our most beloved novelists shares his reflections from a lifetime of writing stories about the world Here collected for the first time on Michael s 82nd birthday are his thoughts on nature childhood writing peace and war and getting older Some are deeply personal some political others in between And woven in amongst them you will find a play a poem or two and even a few stories Full of wonder gentle humour and sharp observation *Funny Thing Getting Older* is a book to treasure For me a story is like a kite It

will swoop and soar and it will be please my heart when it s up there floating on the wind It is the same with the making of the pieces in this book every one of them I have to keep making and flying my kites and to teach others if I can to fly theirs
