irreparably compromises and mars global solidarities and our sense of human belonging that we must radically rethink cherished ideas about humankind as the bearer of dignity and freedom or culture as a power of transcendence Cheah links influential arguments about the new cosmopolitanism drawn from the humanities the social sciences and cultural studies to a perceptive examination of the older cosmopolitanism of Kant and Marx and juxtaposes them with proliferating formations of collective culture to reveal the flaws in claims about the imminent decline of the nation state and the obsolescence of popular nationalism Cheah also proposes a radical rethinking of the normative force of human rights in light of how Asian values challenge human rights universalism
