The Spirit of Chinese Politics Lucian W. Pye,1992 Lucian Pye one of the most knowledgeable observers of China unfolds in this book a deep psychological analysis of Chinese political culture The dynamics of the Cultural Revolution the behavior of the Red Guards and the compulsions of Mao Tse tung are among the important symptoms examined But Pye goes behind large events exploring the more enduring aspects of Chinese culture and the stable elements of the national psychology as they have been manifested in traditional Republican and Communist periods He also scans several possible paths of future development The emphasis is on the roles long played by authority order hierarchy and emotional quietism in Chinese political culture as shaped by the Confucian tradition and the institution of filial piety and the resulting confusions brought about by the displacements of these traditions in the face of political change and modernization In this new edition Pye adds a chapter on the basic tension between consensus and conflict in the operation of Chinese politics illustrating the spirit in action and another discussing the great gap that persists between the worlds of the political leadership and of society at large in post Tiananmen China

in whole or in part with Hong Kong and with Hong Kong Chinese students and emigres throughout the world **Military Review**, 1951 **Communist China: a Bibliographic Survey** Army Library (U.S.), 1971 *Revolutionary States, Leaders, and Foreign Relations* Houman A. Sadri, 1997-04-16 This book compares and contrasts the foreign relations strategies of China Cuba and Iran in the first decade of their post revolutionary periods Among a variety of explanatory variables leadership particularly the type of revolutionary leaders played a significant role in explaining the outcome of the policymaking process in each case Three distinct patterns of foreign relations strategies are evident among all three revolutionary regimes in the ten year period Two Track Conflictual and Conciliatory This book is a valuable source for both experts and non experts alike in providing insight into the foreign relations of revolutionary regimes in developing countries and in helping U S policymakers anticipate behaviors of future revolutionary leaders A focal point of this book is the examination of the nonalignment strategies of these prominent developing countries during the infancy of their regimes Each state s particular strategy is described and explained in detail and then contrasted and compared Although there are differences among their foreign policies considering their geographic locations size wealth military capabilities leadership characteristics and political institutions there are significant similarities regarding their foreign policy goals and trends in their foreign relations with the Great Powers Among explanatory factors leadership played a significant role in the policy making process although the foreign relations strategies of these revolutionary regimes were fed by a combination of national and international variables In all three states the tone of foreign policy was set by revolutionary leaders who were either idealists or realists Idealists tended to take a more active and conflictual approach toward one or both of the superpowers while Realists were more cautious and less willing to resort to a conflictual posture This book also investigates the gap between the theoretical and practical nonalignment stance of each state This cross regional study provides policy analysts with clues about the foreign policies of other revolutionary developing countries in similar situations Finally it makes suggestions about how a Great Power may relate to a developing country during its first post revolution decade 11 Days in December Stanley Weintraub, 2006-11-07 In 11 Days In December master historian and biographer Stanley Weintraub tells the remarkable story of the Battle of the Bulge as it has never been told before from frozen foxholes to barn shelters to boxcars packed with wretched prisoners of war In late December 1944 as the Battle of the Bulge neared its climax a German loudspeaker challenge was blared across GI lines in the Ardennes How would you like to die for Christmas In the inhospitable forest straddling Belgium France and Luxembourg only the dense snow laden evergreens recalled the season Most troops hardly knew the calendar day they were trying to live through or that it was Hitler s last desperate effort to alter the war s outcome Yet the final Christmas season of World War II matched desperation with inspiration When he was offered an ultimatum to surrender the besieged Belgian town of Bastogne Brigadier General Anthony McAuliffe defied the Germans with the memorable one word response Nuts And as General Patton prayed for clear skies to allow vital airborne reinforcements

to reach his trapped men he stood in a medieval chapel in Luxembourg and spoke to God as if to a commanding general Sir whose side are you on His prayer was answered The skies cleared the tide of battle turned and Allied victory in World War II was assured Christmas 1944 proved to be one of the most fateful days in world history Many men did extraordinary things and extraordinary things happened to ordinary men A clear cold Christmas Patton told his diary lovely weather for killing Germans which seems a bit queer seeing whose birthday it is Peace on earth and good will toward men would have to wait 11 Days in December is unforgettable **Air University Library Index to Military Periodicals** ,1965 **Current**

,1967 **Quarterly Review of Military Literature** ,1976 **Power at Sea** Lisle A. Rose,2007 Volume 1 Traces the social issues technological advances and combative encounters of the international naval race from 1890 through WWI as the largest industrial nations U S Great Britain Japan and Germany scrambled to secure global markets and empire using their battleship navies as pawns of power politics Provided by publisher **Airman** ,1959 **Reel Food** Anne L.

Bower,2012-08-06 **Reel Food** is the first book devoted to food as a vibrant and evocative element of film featuring original essays by major food studies scholars among them Carole Counihan and Michael Ashkenazi This collection reads various films through their uses of food from major food films like *Babette's Feast* and *Big Night* to less obvious choices including *The Godfather* trilogy and *The Matrix* The contributors draw attention to the various ways in which food is employed to make meaning in film In some cases such as *Soul Food* and *Tortilla Soup* for example food is used to represent racial and ethnic identities In other cases such as *Chocolat* and *Like Water for Chocolate* food plays a role in gender and sexual politics And of course there is also discussion of the centrality of popcorn to the movie going experience This book is a feast for scholars foodies and cinema buffs It will be of major interest to anyone working in popular culture film studies and food studies at both the undergraduate and graduate level **Profanity, Obscenity and the Media** Melvin J. Lasky,2017-12-02 This is the

second volume of Melvin J Lasky's *The Language of Journalism* series praised as a brilliant and original study in communications and contemporary language and as a joy to read When it was first published it broke ground in focusing on the comparative styles and prejudices of mainstream American and British newspapers and in its trenchant analysis of their systematic debasement of language in the face of obligatory platitudes and compulsory euphemisms Lasky documents the

growing crisis affecting honest thoughtful and independent journalism in the Western world He extends the scope of his first volume in the trilogy and deepens the interpretation He also adds a personal touch of wit and anecdote as one might expect from an experienced international journalist and historian Lasky's examination of the use of formerly forbidden language is a triumph of sinuous semantics In his incisive analysis we see the tortuous struggle of a once Puritanized literary culture writhing to break free of censorship and self censorship This volume on the phenomenon of profanity adds another dimension to Lasky's thesis on mass culture's trivialization of real social and political phenomena It also underscores our society's embrace of banality in standardizing politically correct jargon and slang Readers of the first volume will find here a new range of references to illuminate the detail of what our newspapers have been publishing *Problems of Communism* ,1973
