whether to follow the United States should it choose to take its war to Iraq On the home front a battle of an altogether different magnitude reached a turning point with the seeming resolution of the long running struggle between Prime Minister Jean Chrtien and Minister of Finance Paul Martin even though by years end it was by no means clear who had actually won Similarly a number of the consequences of the 9 11 attacks remained unresolved Bill C 17 had not been passed Ottawa software engineer Maher Arar languished in a Syrian jail where he had been sent by the United States and the war drums were beating loudly around Iraq Continuing in the standard for which it has been acclaimed the Canadian Annual Review of Politics and Public Affairs 2002 presents detailed analyses of events that have come to define our nation in recent years

Economic Rights in Canada and the United States Rhoda E. Howard-Hassmann,Claude E. a confident transition to clinical practice **Medicare's Histories** Esyllt W. Jones, James Hanley, Delia Gavrus, 2022-05-27 Medicare is arguably Canada's most valued social program. As federally supported Medicare enters its second half century, Medicare's Histories brings together leading social and health historians to reflect on the origins and evolution of Medicare and the missed opportunities characterizing its past and present. Embedding Medicare in the diverse constituencies that have given it existence and meaning, contributors inquire into the strengths and weaknesses of publicly insured health care and critically examine Medicare's unfinished role in achieving greater health equity for all people in Canada, regardless of race, status, gender, class, age, and ability. Fundamental to the stories told in Medicare's Histories is the essential role played by communities of activists, critics, health professionals, First Nations patients, families, and survivors in driving demands for health reform, in identifying particular omissions and inequities exacerbated or even created by Medicare, and in responding to the realities of Medicare for those who work in and rely on it. Contributors to this volume show how Medicare has been shaped by politics in the broadest sense of that word: identities, professional organizations, and social movements in Canada and abroad. As COVID lays bare social inequities and the inadequacies of health care delivery and public health, this book shows what was excluded and what was and is possible in health care.

Thinking Women and Health Care Reform in Canada Pat Armstrong, 2012 Thinking Women and Health Care Reform in Canada explores why health care is a woman's issue and seeks to address gender equity in health services. Written by members of Women and Health Care Reform (WHCR), this collection establishes the importance of including gender in discussions and decisions surrounding health sector reform. In twelve concise chapters, Thinking Women and Health Care Reform in Canada addresses a wide range of issues, including obesity, maternity care, mental health of health care workers, and private health insurance. This thought-provoking collection is an essential read for students and researchers in the fields of women's studies, health sciences, sociology, and nursing, as well as for anyone who is looking for a new picture of health care in Canada.

Political Marketing in Canada Alex Marland, Thierry Giasson, Jennifer Lees-Marshment, 2012-02-15 Political parties worldwide are using marketing tools such as targeting and segmentation to win elections. Are these strategies making politicians and governments more responsive to voters' needs, or do they pose a threat to democracy? Political Marketing in Canada, the first book to ask this question of Canada, considers the consequences of political marketing in the realms of public policy, leadership, and the government-citizen relationship. Through dynamic case studies that range from the resurrection of the Conservative Party to media accounts of political marketing to Tim Hortons as a political brand, the authors trace how political marketing is transforming the old system of brokerage politics into a new, distinctly Canadian model. Citizens are now viewed as consumers, and platforms and promises have been repackaged as products. Whether this trend is positive or negative, the authors argue depends on how politicians and governments carry out political marketing and its promises in practice.
