Global Human Smuggling David Kyle, Rey Koslowski, 2011-11-15 Ten years ago the topic of human smuggling and trafficking was relatively new for academic researchers though the practice itself is very old Since the first edition of this volume was published much has changed globally directly impacting the phenomenon of human smuggling Migrant smuggling and human trafficking are now more entrenched than ever in many regions with efforts to combat them both largely unsuccessful and often counterproductive This book explores human smuggling in several forms and regions globally examining its deep historic social economic and cultural roots and its broad political consequences Contributors to the updated and expanded edition consider the trends and events of the past several years especially in light of developments after 9 11 and the creation of the U S Department of Homeland Security They also reflect on the moral economy of human smuggling and trafficking the increasing percentage of the world s asylum seekers who escape political violence only by being smuggled and the implications of human smuggling in a warming world

Trafficking Justice Lauren A. McCarthy, 2015-11-16 In response to a growing human trafficking problem and domestic and international pressure human trafficking and the use of slave labor were first criminalized in Russia in 2003 In *Trafficking Justice* Lauren A McCarthy explains why Russian police prosecutors and judges have largely ignored this new weapon in their legal arsenal despite the fact that the law was intended to make it easier to pursue trafficking cases Using a combination of interview data participant observation and an original dataset of more than 5 500 Russian news media articles on human trafficking cases McCarthy explores how trafficking cases make their way through the criminal justice system covering multiple forms of the crime sexual labor and child trafficking over the period 2003 2013 She argues that to understand how law enforcement agencies have dealt with trafficking it is critical to understand how their institutional machinery the incentives culture and structure of their organizations channels decision making on human trafficking cases toward a familiar set of routines and practices and away from using the new law As a result law enforcement often chooses to charge and prosecute traffickers with related crimes such as kidnapping or recruitment into prostitution rather than under the 2003 trafficking law because these other charges are more familiar and easier to bring to a successful resolution In other words after ten years of practice Russian law enforcement has settled on a policy of prosecuting traffickers not trafficking

Combating Proliferation Jason D. Ellis, Geoffrey D. Kiefer, 2007-02-23 Selected by Choice Magazine as an Outstanding Academic Title The intelligence community's flawed assessment of Iraq's weapons systems and the Bush administration's decision to go to war in part based on those assessments illustrates the political and policy challenges of combating the proliferation of weapons of mass destruction In this comprehensive assessment defense policy specialists Jason Ellis and Geoffrey Kiefer find disturbing trends in both the collection and analysis of intelligence and in its use in the development and implementation of security policy Analyzing a broad range of recent case studies Pakistan's development of nuclear weapons North Korea's defiance of U.N. watchdogs Russia's transfer of nuclear and missile technology to Iran and China's to Pakistan the Soviet biological warfare program weapons inspections in Iraq and others the authors find that intelligence collection and analysis relating to WMD proliferation are becoming more difficult that policy toward rogue states and regional allies requires difficult tradeoffs and that using military action to fight nuclear proliferation presents intractable operational challenges Ellis and Kiefer reveal that decisions to use or overlook intelligence are often made for starkly political reasons They document the Bush administration's policy shift from nonproliferation which emphasizes diplomatic tools such as sanctions and demarches to counterproliferation which at times employs interventionist and preemptive actions They conclude with cogent recommendations for intelligence services and policy makers
