Moody's Manual of Investments, American and Foreign; Banks, Insurance Companies, Investment Trusts, Real Estate, Finance and Credit Companies, 1944 **Abstract Barrios** Johana Londoño, 2020-08-10 In

Abstract Barrios Johana Londoño examines how Latinized urban landscapes are made palatable for white Americans Such Latinized urban landscapes she observes especially appear when whites feel threatened by concentrations of Latinx populations commonly known as barrios Drawing on archival research interviews and visual analysis of barrio built environments Londoño shows how over the past seventy years urban planners architects designers policy makers business owners and other brokers took abstracted elements from barrio design such as spatial layouts or bright colors to safely Latinize cities and manage a long standing urban crisis of Latinx belonging The built environments that resulted ranged from idealized notions of authentic Puerto Rican culture in the interior design of New York City's public housing in the 1950s which sought to diminish concerns over Puerto Rican settlement to the Fiesta Marketplace in downtown Santa Ana California built to counteract white flight in the 1980s Ultimately Londoño demonstrates that abstracted barrio culture and aesthetics sustain the economic and cultural viability of normalized white and middle class urban spaces **Manual of Romance**

Forensic Linguistics Victoria Guillén-Nieto, Dieter Stein, 2025-06-02 It is evident that published serious science based work in Forensic Linguistics is predominantly written in English and focuses on casework from the English speaking world While

the first aspect is understandable given that English serves as an international lingua franca in scientific discourse the second aspect presents a significant limitation for the field Should researchers assume that there is simply less crime in non English speaking areas of the world A more pertinent question might be What cultural disciplinary legal or legal cultural factors contribute to the lack of research in and on languages other than English In addition to addressing the underrepresentation of Romance languages in scientific publications related to forensic work the chapters in this handbook will also explore the reasons behind this unfortunate situation Designed to engage readers whether they are linguists legal professionals or simply interested individuals and to spark interest in Romance Forensic Linguistics this handbook follows three key objectives First we are committed to providing a comprehensive overview of the casework and research conducted in and on several Romance languages including Peninsular Spanish Catalan Brazilian Portuguese French Canadian French Italian and Romanian Second the chapters in this volume seek to understand why Forensic Linguistics has thrived more in some Romance speaking countries than in others Finally we aim to uncover the reasons for the slower development of Forensic Linguistics in regions where Romance languages are predominantly spoken
