inner workings of Joe's in this collection of fascinating intimate vignettes Go behind the scenes of a thriving business that treats both staff and customers like family For one hundred years Miami natives and tourists alike have waited and dined alongside celebrities including Frank Sinatra Muhammad Ali Dan Marino and Jennifer Lopez There's no other place in the world quite like Joe's Stone Crab this is the story of the waiters not the wait **The Bigger Picture** Diana H. Walker, 2007 As a White House photographer through five presidential administrations Walker enjoyed incomparable access to the world's major movers and shakers This visual history captures presidents and their families in wonderfully candid moments and world leaders in the course of momentous events **Portrait and Biographical Album of Clinton and Shiawassee, Counties, Mich** ,1891 *Hillary's Angel* Ross Nicholson, 2008 What was Hillary Clinton like when she was just starting out in life What part did Almighty God have in her selection for American leadership How is she a part of the American clique that evolved for and against the Bush led Plumbers assassination of JFK **A Portrait and Biographical Record of Boone and Clinton Counties, Ind., Containing Biographical Sketches of Many Prominent and Representative Citizens Together with Biographies of All the Presidents of the United States and Biographies of the Governors of Indiana** ,1895 **A Portrait and Biographical Record of Boone Clinton and Hendricks Counties, Ind** ,1895 **Hello Mr. President** Ann Ragland, 2013-04 The large paneled door to the front part of the house opened wide and there he was There was the one I had been waiting to meet There was the one for whom I had done scrubbing and cleaning and baking There was the man who had lived in the White House some years ago the one who had met with world leaders There was the man who had served as the President of our country and he was standing right in front of me right here in my house He looked so tall and so handsome His head was covered with lots of grey hair and he looked very presidential in his tailored navy blue suit His eyes were smiling as he walked straight toward my family and me Kind and gracious words flowed from his mouth as our hands grasped another Emily Post moment Then his tall body squatted down right in front of Sara and Julica and he looked straight into their eyes and shook their hands Julica was being especially bashful and her eyes turned to the floor as President Clinton held her hand and spoke to her Sara however looked the President straight in the eyes and as she held his hand she said Hello Mr President [The Rock From Mars](#) Kathy Sawyer, 2006-02-14 In this riveting book acclaimed journalist Kathy Sawyer reveals the deepest mysteries of space and some of the most disturbing truths on Earth The Rock from Mars is the story of how two planets and the spheres of politics and science all collided at the end of the twentieth century It began sixteen million years ago An asteroid crashing into Mars sent fragments flying into space and eons later one was pulled by the Earth's gravity onto an icy wilderness near the southern pole There in 1984 a geologist named Roberta Score spotted it launching it on a roundabout path to fame and controversy In its new home at NASA's Johnson Space Center in Houston the rock languished on a shelf for nine years a victim of mistaken identity Then in 1993 the geochemist Donald Duck Mittlefehldt unmasked the rock as a Martian meteorite Before long specialist Chris Romanek detected signs of once

living organisms on the meteorite And the obscure rock became a rock star But how did nine respected investigators come to make such startling claims about the rock that they triggered one of the most venomous scientific battles in modern memory The narrative traces the steps that led to this risky move and follows the rippling impact on the scientists lives the future of space exploration the search for life on Mars and the struggle to understand the origins of life on Earth From the second the story broke in Science magazine in 1996 it spawned waves of excitement envy competitive zeal and calculation In academia in government agencies in laboratories around the world and even in the Oval Office where an inquisitive President Clinton had received the news in secret players of all kinds plotted their next moves Among them David McKay the dynamic geologist associated with the first moon landing who labored to achieve at long last a second success Bill Schopf of UCLA a researcher determined to remain at the top of his field and the first to challenge McKay s claims Dan Goldin the boss of NASA and Dick Morris the controversial presidential adviser who wanted to use the story for Clinton s reelection and unfortunately made sure it ended up in the diary of a 200 an hour call girl Impeccably researched and thrillingly involving Kathy Sawyer s The Rock from Mars is an exemplary work of modern nonfiction a vivid account of the all too human high stakes drive to learn our true place in the cosmic scheme

Race, Rights, and Rifles Alexandra Filindra, 2023-09-26 An eye opening examination of the ties between American gun culture and white male supremacy from the American Revolution to today One third of American adults approximately 86 million people own firearms This is not just for protection or hunting Although many associate gun centric ideology with individualist and libertarian traditions in American political culture Race Rights and Rifles shows that it rests on an equally old but different foundation Instead Alexandra Filindra shows that American gun culture can be traced back to the American Revolution when republican notions of civic duty were fused with a belief in white male supremacy and a commitment to maintaining racial and gender hierarchies Drawing on wide ranging historical and contemporary evidence Race Rights and Rifles traces how this ideology emerged during the Revolution and became embedded in America's institutions from state militias to the National Rifle Association NRA Utilizing original survey data Filindra reveals how many White Americans including those outside of the NRA's direct orbit embrace these beliefs and as a result they are more likely than other Americans to value gun rights over voting rights embrace antidemocratic norms and justify political violence

A Passion for Life Cheng-Wen Wu, Chwan-Wen Liu, 2010 This is a biography of Dr Felicia Wu Felicia was a scientist with a successful career in cancer research but what marked the most extraordinary aspect about her life was her journey as a truly brave cancer patient and an incredibly determined cancer fighter Originally this book was intended to be an autobiography written and narrated by Felicia herself She wanted to share with other cancer sufferers her 13 long years of experience fighting cancer to prepare them for the side effects and uncertainties of the treatment and also to encourage them to brace and face their own treatment without fear What she did not realize then was that her time was ticking away and her life trickling off quickly Writing her own autobiography proved to be an impossible task Felicia succumbed to the prolonged battle and departed from this world Her husband Dr Cheng Wen Wu finished the uncompleted task of writing the book in loving memory of her The biography of Felicia originally published in Chinese edition has been recommended as a reading model for students in schools and was nominated for an award in Taiwan Felicia's story had also inspired the production of a documentary film entitled OC A Passion for Life OCO funded and sponsored by The American Cancer Society This biography of Felicia in English edition painstakingly translated by Dr Cheng Wen Wu and his collaborating translator Ms Annie Chen will certainly live up to its original premise as an inspiration to touch more lives and as a source of strength to all who encounter difficulty disappointment and hurt at any point of their lives
