The Catholic Church and Politics in Nicaragua and Costa Rica Philip J. Williams,2010-11-23 Unlike most recent studies of the Catholic Church in Latin America Philip J Williams analyzes the Church in two very dissimilar political contexts Nicaragua and Costa Rica Despite the obvious differences Williams argues that in both cases the Church has responded to social change in remarkably similar fashion The efforts of progressive clergy to promote change in both countries have been largely blocked by Church hierarchy fearful that such change will threaten the Church s influence in society *Creating Pátzcuaro, Creating Mexico* Jennifer Jolly,2018-01-24 In the 1930s the artistic and cultural patronage of celebrated Mexican president L zaro C rdenas transformed a small Michoac n city P tzcuaro into a popular center for national tourism C rdenas commissioned public monuments and archeological excavations supported new schools libraries and a public theater developed tourism sites and infrastructure including the Museo de Artes e Industrias Populares and hired artists to paint murals celebrating regional history traditions and culture The creation of P tzcuaro was formative for Mexico not only did it provide an early model for regional economic and cultural development but it also helped establish some of Mexico s most enduring national myths rituals and institutions In *Creating P tzcuaro* *Creating Mexico* Jennifer Jolly argues that P tzcuaro became a microcosm of cultural power during the 1930s and that we find the foundations of modern Mexico in its creation Her extensive historical and archival research reveals how C rdenas and the artists and intellectuals who worked with him used cultural patronage as a guise for radical modernization in the region Jolly demonstrates that the P tzcuaro project helped define a new modern body politic for Mexico in which the population was asked to emulate C rdenas by touring the country and seeing and embracing its land history and people Ultimately by offering Mexicans a means to identify and engage with power and privilege the creation of P tzcuaro placed art and tourism at the center of Mexico s postrevolutionary nation building project **Addicted to Failure** Brian Loveman,2006 For supplementary documentation and useful websites click here This perceptive book critically explores why the United States continues to pursue failed policies in Latin America What elements of the U S and Latin American political systems have allowed the Cold War the war on drugs and the war on terror to be conflated Why do U S policies ostensibly designed to promote the rule of law human rights and democracy

instead contribute to widespread corruption erosion of government authority human rights violations and increasing destabilization Why have the war on drugs and the war on terror neither reduced narcotics trafficking nor increased citizen security in Latin America Why do Latin American governments the European Union and U S policymakers often work at cross purposes when they all claim to be committed to democratization and development in the region Leading scholars answer these questions by detailing the nature of U S economic and security strategies in Latin America and the Andean region since 1990 They analyze the impacts and responses to these strategies by policymakers political leaders and social movements throughout the region explaining how programs often generate or exacerbate the very problems they were intended to solve Reviewing official policy and its defenders and critics alike this indispensable book focuses on the reasons for the failure of U S policies and their disastrous significance for Latin America and the United States alike Contributions by Adri n Bonilla Pilar Gait n Monica Herz Kenneth Lehman Brian Loveman Enrique Obando Orlando J P rez Eduardo Pizarro Philipp Sch nrock Mart nez and Juan Gabriel Tokatlían
