Rome Versus Carthage The War At Sea:

Rome Versus Carthage Christa Steinby, 2014-10-30 The epic struggle between Carthage and Rome two of the superpowers of the ancient world is most famous for land battles in Italy on the Iberian peninsula and in North Africa But warfare at sea which played a vital role in the First and Second Punic Wars rarely receives the attention it deserves And it is the monumental clashes of the Carthaginian and Roman fleets in the Mediterranean that are the focus of Christa Steinby's absorbing study She exploits new evidence including the latest archaeological discoveries and she looks afresh at the ancient sources and quotes extensively from them In particular she shows how the Romans seafaring tradition and their skill determination and resourcefulness eventually gave them a decisive advantage In doing so she overturns the myths and misunderstandings that have tended to distort our understanding of Roman naval warfare

Oceans, Seas, Shorelines and Warfare Richard Harding, Ross Anderson, Mick de Ruyter, 2024-09-23 For as long as humanity has ventured on the seas naval warfare has been an integral part of their activities and the focal point for many histories and ideas of heritage This book presents a rarely explored aspect the long term impact of those battles on shorelines seas and oceans Dramatic and altering the physical scars of battles remain with us today in the form of cultural landscapes and archaeological sites while the geopolitical consequences of warfare have been world changing The migrations of peoples across the seas accompanied by violence have done more to shape the demographic and cultural map of the modern world than almost anything else Both seaborne opportunities and threats have influenced the way of life of coastal communities Today technology has seen these threats extend far into the deepest ocean and reach across continents This book shows how despite being virtually invisible to an increasing percentage of the world's population the ocean is more significant now than it has ever been Ranging from the world of antiquity to the present day with a global perspective the volume is intended to appeal to those interested in history archaeology social sciences and the environment

Poetics of the First Punic War Thomas Biggs, 2020-11-20 Poetics of the First Punic War investigates the literary afterlives of Rome's first conflict with Carthage From its original role in the Middle Republic as the narrative proving ground for epic's development out of verse historiography to its striking cultural reuse during the Augustan and Flavian periods the First Punic War 264-241 BCE holds an underappreciated place in the history of Latin literature Because of the serendipitous meeting of historical content and poetic form in the third century BCE a textualized First Punic War went on to shape the Latin language and its literary genres the practices and politics of remembering war popular visions of Rome as a cultural capital and numerous influential conceptions of Punic North Africa Poetics of the First Punic War combines innovative theoretical approaches with advances in the philological analysis of Latin literature to reassess the various texts of the First Punic War including those composed by Vergil Propertius Horace and Silius Italicus This book also contains sustained treatment of Naevius fragmentary *Bellum Punicum* Punic War and Livius Andronicus *Odyssea* some of the earliest works of Latin poetry As the tradition's primary Roman topic the First Punic

War is forever bound to these poems which played a decisive role in transmitting an epic view of history *Mediterranean Naval Battles That Changed the World* Quentin Russell, 2021-03-03 This epic naval history examines seven pivotal Mediterranean conflicts from the Battle of Salamis in the fifth century BC to the Siege of Malta during WWII This book tells the story of the Mediterranean as a theater of war at sea Historian Quentin Russell covers seven major battles or campaigns each of which changed the balance of power and shape the course of history Chronicling each battle in vivid detail Russell also provides essential background covering the history of naval power in the Mediterranean and the effect of the development of naval architecture and design on the outcomes Readers will learn that the Battle of Lepanto in 1571 was the last major battle fought between galleys the Battle of Navarino in 1827 was the last to be fought entirely by sailing ships and the Battle of Cape Matapan in 1941 where a young Duke of Edinburgh saw action was the first operation to exploit the breaking of the Italian naval Enigma codes The battles included are Salamis 480 BC Actium 31 BC Lepanto 1571 the Nile aka Aboukir Bay 1798 Navarino 1827 Cape Matapan 1941 and the Siege of Malta 1940-42 *Rome Spreads Her Wings* Gareth C. Sampson, 2016-06-19 The two decades between the end of the First Punic War and the beginning of the Second represent a key period in the development of Rome's imperial ambitions both within Italy and beyond Within Italy Rome faced an invasion of Gauls from Northern Italy which threatened the very existence of the Roman state This war culminated at the Battle of Telamon and the final Roman victory against the Gauls of Italy giving Rome control of the peninsula up to the Alps for the first time in her history Beyond the shores of Italy Rome acquired her first provinces in the form of Sardinia and Corsica established footholds in Sicily and Spain and crossed the Adriatic to establish a presence on the Greek mainland bringing Rome into the orbit of the Hellenistic World Yet this period is often treated as nothing more than an intermission between the two better known Punic Wars with each Roman campaign being made seemingly in anticipation of a further conflict with Carthage Such a view overlooks two key factors that emerge from these decades firstly that Rome faced a far graver threat in the form of the Gauls of Northern Italy than she had faced at the hands of the Carthaginians in the First Punic War secondly that the foundations for Rome's overseas empire were laid in these very decades This work seeks to redress the balance and view these wars in their own right analyse how close Rome came to being defeated in Italy and assess the importance of these decades as a key period in the foundation of Rome's future empire **The Blood-Drenched Sea** Alfred S. Bradford, 2019-08-15 This book is an indispensable resource for readers who want to know the whole comprehensive story of ancient naval warfare The Blood Drenched Sea describes all the naval battles and wars fought in the ancient Mediterranean In one volume are the ships crews and leaders who determined the course of ancient history along with the wars and battles told through artifacts extant literary and visual sources and modern reconstructions the Egyptian mortuary temple the Minoan domain the legendary sack of Troy the expansion of Greeks throughout the Mediterranean the Athenian victory over the Persians at Salamis and the Athenian empire ruined by one moment of superstition Then the

Romans learned how to build ships man them row in tiers and command fleets and the volume recounts their contributions to history as well They fought three wars with Carthage that cost them hundreds of thousands of casualties and expenditures of vast wealth and they conquered the whole of the Mediterranean Meanwhile Julius Caesar expanded the empire with the conquest of Gaul and the invasion of Britain and his adoptive son Octavian settled the question of who would rule the new empire by winning the naval battle at Actium

New Directions in African Military History Timothy J. Stapleton,2025-06-02 New Directions in African Military History takes a thematic approach to the history of war and military structures in Africa and highlights the under researched areas African Military History represents a relatively new and fast growing sub field bridging the previously wide gap between the well established genres of African History and Military History Based on a synthesis of existing literature and aimed at a wide readership this book adopts a broad temporal range and uses select examples to highlight a series of points to cover the pre colonial to post colonial eras and offer examples from various parts of the continent This volume evaluates controversial academic debates examining evidence research methods approaches and changing historiographical contexts as well as pointing to potential new areas of research It comprises seven thematic chapters on ways of war weapons technology navies air power battles women combatants and genocide in African history This volume will be of value to students and scholars alike interested in Modern History Military History and African History

African Navies Timothy Stapleton,2022-11-11 This edited volume focuses on aspects of the understudied theme of African sea power including African navies and the engagement of non African navies with the continent Africa possesses 48 000 kilometers of coastline comprising 38 out of 54 of the continent s states and several strategic choke points for international shipping such as the Suez Canal the Gulf of Aden and the Cape of Good Hope Nevertheless post colonial Africa s small navies and their relations with the navies of external powers have not received much scholarly attention Focusing on

Sub Saharan Africa this collection attempts to address this neglect and stimulate further research by offering original chapters related to historical and contemporary themes around Africa's navies. The historical chapters cover the origin of the Tanzanian, Ethiopian, Nigerian, and Ghana navies during the era of decolonization and the Cold War, the asymmetrical naval campaign fought during the Nigerian Civil War 1967-70, and the activities of the Soviet Navy in supporting African states and movements fighting lingering colonialism and white supremacy during the 1970s and 1980s. Focusing on the contemporary situation, other chapters discuss the engagement of the Indian Navy with Africa, the potential role of the Angolan and Mozambican navies in the Southern African Development Community (SADC), the transformation and development of the post-apartheid South African Navy, and the challenges and capabilities of African navies in the early twenty-first century. The book concludes by discussing the question of whether African coastal countries need navies. This book will be of much interest to students of naval power, strategic studies, African politics, and International Relations. Chapters 1, 2, 6, and 8 of this book are available for free in Open Access at www.taylorfrancis.com. It has been made available under a Creative Commons Attribution Non-Commercial No Derivatives 4.0 license.

Out of the Depths Alan G. Jamieson, 2024-08-12. A highly illustrated voyage through shipwrecks, ancient and contemporary. *Out of the Depths* explores all aspects of shipwrecks across four thousand years, examining their historical context and significance, showing how shipwrecks can be time capsules and shedding new light on long-departed societies and civilizations. Alan G. Jamieson not only informs readers of the technological developments over the last sixty years that have made the true appreciation of shipwrecks possible, but he also covers shipwrecks in culture and maritime archaeology, their appeal to treasure hunters, and their environmental impacts. Although shipwrecks have become less common in recent decades, their implications have become more wide-ranging since the 1960s. Foundering supertankers have caused massive environmental disasters, and in 2021, the blocking of the Suez Canal by the giant container ship *Ever Given* had a serious effect on global trade.

Combined Effect Strategy and Influence Thomas A. Drohan, 2023-07-27. Offering a competitive strategy to defeat authoritarians, all-domain warfare, this book suggests a new combined effects and influence framework for democracies to employ before deterrence fails. Breaking new ground in this comprehensive study, retired Brigadier General Thomas A. Drohan reforms an entrenched legacy concept: coercive compellence and deterrence. The book's framework synthesizes brute force coercion, combined arms, and concepts of operations into combined effects and concepts of influence, including narrative warfare with cognitive exploits. The survey of competitive strategy at the beginning of the book spans a time frame from the thinking of ancient civilizations all the way to artificial intelligence, providing broad historical context for this model. The contemporary cases that test the model focus on complex competition and confrontation during the past 75 years. *Combined Effect Strategy and Influence* is unique in its critique of democracies' dominant paradigm of international security and its broad, specific framework ready for strategists, analysts, planners, and operators to apply to current threats. Students, researchers, and any leader interested in developing

superior strategy will value the book's insights on gaining an advantage against emerging threats

What is Military History? Stephen Morillo, 2017-12-21 The third edition of *What is Military History* has been thoroughly updated and includes a new bibliography and new case studies on naval warfare and the origins of war as well as expanded sections on historiography, environmental history and world history. This popular textbook showcases a field that encompasses not only accounts of campaigns and battles but includes a wide range of perspectives on all aspects of past military organization and activity. Its global and comparative analysis covers the history of military history showing how it has developed from ancient times to the present, the key ideas and concepts that shape analysis of military activity, the current controversies about which military historians argue and why they are important, a survey of who does military history, where it is taught and published and how it is practiced, and a look at where military history is headed in the future. Ideal for any interested reader and for classes in military history and in historiography, generally the third edition of this popular book thoroughly explains the dynamics of this rich and growing area of study.
