Sbir At The Department Of Defense:

SBIR at the Department of Defense National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on Capitalizing on Science, Technology, and Innovation: An Assessment of the Small Business Innovation Research Program--Phase II, 2014-09-30 Created in 1982 through the Small Business Innovation Development Act the Small Business Innovation Research SBIR program remains the nation's single largest innovation program for small business. The SBIR program offers competitive awards to support the development and commercialization of innovative technologies by small private sector businesses. At the same time the program provides government agencies with technical and scientific solutions that address their different missions. SBIR at the Department of Defense considers ways that the Department of Defense SBIR program could work better in addressing the congressional objectives for the SBIR program to stimulate technological innovation, use small businesses to meet federal research and development R D needs, foster and encourage the participation of socially and economically disadvantaged small businesses, and increase the private sector commercialization of innovations derived from federal R D. An earlier report, *An Assessment of the Small Business Innovation Research Program at the Department of Defense*, studied how the SBIR program has stimulated technological innovation and used small businesses to meet federal research and development needs. This report builds on the previous one with a revised survey of SBIR companies. SBIR at the Department of Defense revisits some case studies from the 2009 study and develops new ones and interviews agency managers and other stakeholders to provide a second snapshot of the program's progress toward achieving its legislative goals. *Revisiting the Department of Defense SBIR Fast Track Initiative* National Research Council, Policy and Global Affairs, Committee for Capitalizing on Science, Technology, and Innovation: An Assessment of the Small Business Innovation Research Program, 2009-10-25 In October 1995 the Department of Defense launched a Fast Track initiative to attract new firms and encourage commercialization of Small Business Innovation Research SBIR funded technologies throughout the department. The goal of the Fast Track initiative is to help close the funding gap that can occur between Phase I and II of the SBIR program. The Fast Track initiative seeks to address the gap by providing expedited review and essentially continuous funding from Phase I to Phase II as long as applying firms can demonstrate that they have obtained third party financing for their technology. Another program initiative, Phase II Enhancement, was launched in 1999 to concentrate SBIR funds on those R D projects most likely to result in viable new products that the Department of Defense and others will buy. The current volume evaluates the two SBIR Program initiatives, Fast Track and Phase II Enhancement, and finds that both programs are effective. Ninety percent of Fast Track and 95 percent of Phase II Enhancement reported satisfaction with their decision. This book identifies the successes and remaining shortcomings of the programs, providing recommendations to address these issues. *An Assessment of the SBIR Program at the Department of Defense* National Research Council, Policy and Global Affairs, Committee for Capitalizing on Science,

Technology, and Innovation: An Assessment of the Small Business Innovation Research Program,2009-09-28 The SBIR program allocates 2.5 percent of 11 federal agencies extramural R D budgets to fund R D projects by small businesses providing approximately 2 billion annually in competitive awards At the request of Congress the National Academies conducted a comprehensive study of how the SBIR program has stimulated technological innovation and used small businesses to meet federal research and development needs Drawing substantially on new data collection this book examines the SBIR program at the Department of Defense and makes recommendations for improvements Separate reports will assess the SBIR program at NSF NIH DOE and NASA respectively along with a comprehensive report on the entire program

SBIR GUIDE: Department of Defense SBIR Phase I Proposal Preparation Manual Ed Bard,2020-01-17 Newly updated for 2020 DoD SBIR Release The purpose of this book is to guide you through the DoD SBIR program and make your proposal creation easier compliant and increase your success probability My intent is that you will effectively Understand the DoD SBIR program Learn my method for getting solicitation topics tailored to the problem you solve Create a compliant and standout proposal with the aid of real world sample proposal components Understand the process of contracting Position your project for a follow on Phase II contract This book provides a practical step by step process to get you from a concept to an actual proposal while arming you with the knowledge needed to successfully execute and position yourself for a Phase II award The sequential chapters allow one to 1 Understand the basics of the program and answer the pressing questions you may have such as a Am I eligible b What do I give up c Who owns the intellectual property 2 Complete all required entity registrations prior to proposal submission 3 Introduction to the BAA and topic solicitations 4 Present my method for getting a potential solicitation created for your solution 5 Learn about the role and requirements of the principal investigator 6 Detailed and step by step instructions on proposal generation to include requirements tips formats and a sample of the sections 7 How to upload your proposal into the DoD SBIR portal 8 Provide our history of contracting so you are better prepared 9 I provide some recommendations on executing your Phase I project to better position your project for Phase II consideration 10 Finally a glossary to help navigate all relevant acronyms For more information and resources visit us at www.sbirguide.com
