Encyclopaedia of New Guinea and the journal *Meanjin*. These and other MUP publications helped shape how Australians perceived themselves and how they talked about literature, politics, race, the Pacific, the world wars and public policy. From its inception MUP grappled with hard questions: How should a university press be governed? To what extent should such a press be concerned with political, polemical and radical works? And can a university press be financially self-sustaining if it focuses on books that commercial publishers overlook? The respective leaders of MUP answered these questions in ways that regularly led the press into controversy. Using a century of MUP publications and archives, Stuart Kells has written a rich and fascinating history of an invaluable Australian institution, one that is widely seen as public property and whose ups and downs have always been news.

Willing's Press Guide, 1999. Coverage of publications outside the UK and in non-English languages expands steadily until in 1991 it occupies enough of the Guide to require publication in parts.
