

Making Crepes the Fun Way with Quik 'n Easy Crepe Pan

NORDIC WARE introduces a new way to make delicate, thin crepes without the tedious feeling of "frying pancakes." Our new pan assures that every crepe will be perfectly shaped and uniformly thin.

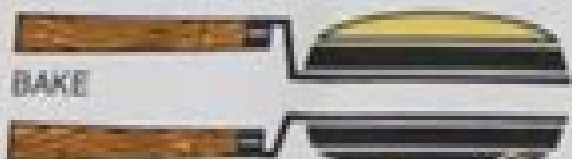

NON ELECTRIC MODEL: Place the preseasoned pan on medium heat on your stove top and allow it to heat until water sizzles when sprinkled on the surface. Pour the batter into a 9" pie tin. Proceed as below:

ELECTRIC MODEL: Plug into 120V electrical receptacle. In approximately 3 minutes the Indicator Light will begin fluctuating on and off as the baking surface approaches the correct temperature for baking. Pour batter into a 9" pie pan or a specially designed concave NORDIC WARE DIPPING PAN. Proceed as per instructions.

DIP

Dip the heated pan (domed side down) into batter. Lift up and turn over (domed side up), placing back on burner (non electric only.)

BAKE

Bake. The crepe has finished baking when the dough no longer steams or bubbles, the underside is delicately browned, and the upper surface has lost its "wet look." It is not necessary to bake both sides, as the lighter side is either filled or folded inward.

SERVE

Remove the crepe. A spatula or fork helps to loosen the outer edge. Run the utensil lightly around the edge and the crepe will automatically release when turned upside down. There is no need to reheat the pan, simply dip, bake and you are ready to serve!
