Abstract

1. **Reliability:** The test is reliable as the correlation coefficient is 0.85, indicating a high degree of consistency in the results.

1. The number 00 is defined as the number of digits in the part after the decimal point.

Keywords: *workplace spirituality, organizational commitment, organizational citizenship behavior, turnover, organizational trust*

Value loading: variability within the network of links is the total volume of variability. **Structure:** variability is distributed among the nodes and links.

Keywords: *workplace spirituality, organizational commitment, organizational citizenship behavior, turnover intentions, organizational trust*

These results are representative of the results for the other two subpopulations (heterozygous and homozygous for $\beta\beta$), and are therefore pooled into a single analysis.
