

A More Connected World

Imagine the size of the Earth, and then draw 2.5 billion lines over it. According to one estimate, this is the smallest number of connections that are currently made through social media, with both followers and friends. Social media is the term used to describe any online community or network in which users create and share content and ideas with others. In these types of networks, people form intricate webs of relationships, share pictures and messages, connect with public figures, participate in events and classes, raise money for causes, and advertise their businesses. Social media affects our lives in countless good ways. Unfortunately, people such as child predators, bullies, and scammers can also use social media for hurtful purposes. In addition, ordinary people sometimes use bad judgement with social-media posts that leads to negative consequences, and can even become addicted to communicating through the Internet so much that they lose touch with reality. Despite these problems, I think social media has enough positive potential that cancels out the negatives.

If used in a responsible way, social media allows people to achieve hundreds of things more easily than without it. One of the greatest advantages of these applications is that they bring people together. For example, my family uses Skype to chat with my grandparents in Hungary nearly every day. And my mother communicates with the members of the yoga class she teaches through a Meetup app on her phone. Old friends can reunite and current friends communicate more easily through Facebook or Instagram. By using a Twitter feature called Hashtags people are able to comment and share ideas in real time, such as during the 2013 New York City mayoral debate, when voters were able to ask questions to the candidates using #NYCDebate. It is even possible to follow news reporters through Twitter and suggest ideas to them. Compared to watching the news on television, using a feed like Mashable is much more efficient because people choose what sources their news comes from. They also have the ability to choose what topics they receive information about. In nations such as Venezuela where news is restricted by the government, citizens can convey to large groups of people what events are really taking place by posting videos on Youtube.

Social media's advantages extend to education, non-profits, and business. I am currently taking a massive open online course (MOOC) offered by Stanford University in which the instructor announces the assignments to over 5,000 students through her Facebook feed. This online class challenges teams from across the globe to communicate and create projects together through Google+. Because of its ability to reach thousands of people at the same time, social media can also be used to raise awareness for and funds for charities and causes. For example, Island Beach State Park, a nonprofit organization that protects animals' natural habitats, encourages people to donate through their Twitter feeds. Virtually any charity today maintains a Facebook or Twitter presence. Likewise, most businesses have Instagram or Facebook links to notify potential customers of events and sales. Another way that social media helps business is by facilitating inexpensive advertising. While advertising during the Super Bowl costs millions of dollars, maintaining a social media is free. Social media has seemingly unlimited capabilities, and people are still figuring out creative ways to use it in positive ways.

The Best American Poetry 2014 David Lehman, Terrance Hayes, 2014-09-09
National Book Award winning poet Terrance Hayes selects the poems for the 2014 edition of The Best American Poetry, a best anthology that really lives up to its title. Chicago Tribune: The first book of poetry that Terrance Hayes ever bought was the 1990 edition of The Best American Poetry edited by Jorie Graham. Hayes was then an undergrad at a small South Carolina college. He has since published four highly honored books of poetry, is a professor of poetry at the University of Pittsburgh, has appeared multiple times in the series and is one of today's most decorated poets. His brazen, restless poems capture the diversity of American culture with singular artistry, grappling with facile assumptions about identity and the complex repercussions of race history in this country. Always eagerly anticipated, the 2014 volume of The Best American Poetry begins with David Lehman's state of the art foreword, followed by an inspired introduction from Terrance Hayes on his picks for the best American poems of the past year. Following the poems is the apparatus for which the series has won acclaim: notes from the poets about the writing of their poems.

Republic of Apples, Democracy of Oranges Frank Stewart, Tony Barnstone, Ming Di, 2019-07-31
Republic of Apples, Democracy of Oranges presents nearly 100 poets and translators from China and the U.S., the two countries most responsible for global carbon dioxide emissions and the primary contributors to extreme climate change. These poetic voices express the altered relationship that now exists between the human and non-human worlds, a situation in which we witness everyday the ways environmental destruction is harming our emotions and imaginations. What can poetry say about our place in the natural world today? Ecologically minded poets ask: How do we express this new reality in art or sing about it in poetry? And as poet Forrest Gander wonders how might syntax, line break or the shape of the poem on the page express an ecological ethics? Eco-poetry freely searches for possible answers. Sichuan poet Sun Wenbo writes: I feel so liberated I start writing about the republic of apples and democracy of oranges. When I see apples have not become tanks, oranges not bombs, I know I've not become a slave of words after all. The Chinese poets are from throughout the PRC and Taiwan, both minority and majority writers from big cities and rural provinces such as Liangshan Yi Autonomous Prefecture and Xinjiang, Uyghur, Tibet and Inner Mongolia Autonomous Regions. The American poets are both emerging and established from towns and cities across the U.S. Included are images by celebrated photographer Linda Butler.
