The Reception of the Homeric Hymns Andrew Faulkner, Athanassios Vergados, Andreas Schwab, 2016-11-17 The Reception of the Homeric Hymns is a collection of original essays exploring the reception of the Homeric Hymns and other early hexameter poems in the literature and scholarship of the first century BC and beyond Although much work has been done on the Hymns over the past few decades and despite their importance within the Western literary tradition their influence on authors after the fourth century BC has so far received relatively little attention and there remains much to explore particularly in the area of their reception in later Greco Roman literature and art This volume aims to address this gap in scholarship by discussing a variety of Latin and Greek texts and authors across the late Hellenistic Imperial and Late Antique periods including studies of major Latin authors such as Virgil Horace and Ovid and Byzantine authors writing in classicizing verse While much of the book deals with classical reception of the Hymns including looking beyond the textual realm to their influence on art the editors and contributors have extended its scope to include discussion of Italian literature of the fifteenth century German scholarship of the nineteenth century and the English Romantic poets demonstrating the enduring legacy of the Homeric Hymns in the literary world

Intratextuality and Latin Literature Stephen J. Harrison, Stavros Frangoulidis, Theodore D. Vergil in Russia Zara Martirosova

Torlone,2014-11-27 The Russian reception of the greatest Roman poet Vergil provided Russian thinkers with a way in which

to define Russian European features This volume looks to uncover the nature of Russian reception of Vergil and argues that the best way to analyse his presence in Russian letters is to view it in the context of the formation and development of Russian national and literary identity Russian reception of Vergil began to play an integral role in the eighteenth century starting with the reforms of Peter the Great and continued to be an important point of reference for Russian writers well into the last part of the twentieth century At the beginning of the twentieth century it took on a spiritual almost messianic mission while towards the end of the millennium the post modernist Vergil of Joseph Brodsky contemplated the fate of a poet in the world However Russian reception of Vergil offers significantly more than mere foreign importation or imitation of the beliefs and attitudes towards Vergil developed in Europe It provides a gateway to understanding Russian eighteenth and nineteenth century thought about national identity and values and uncovers important sources of later thinking about the character and destiny of Russia Vergil in Russia reveals that at the centre of Russian reception of Vergil is Russia's challenge to define the character and validity of their own civilization Vergil's poems especially the Aeneid gave Russian men of letters an opportunity to think about and act upon national self determination in both political and cultural terms

Geography, Topography, Landscape Marios Skempis, Ioannis Ziogas, 2013-12-12 By introducing a multifaceted approach to epic geography the editors of the volume wish to provide a critical assessment of spatial perception of its repercussions on shaping narrative as well as of its discursive traits and cultural contexts Taking the genre specific boundaries of Greco Roman epic poetry as a case in point a team of international scholars examines issues that lie at the heart of modern criticism on human geography Modern and ancient discourse on space representations revolves around the nation shaping force of geography the gendered dynamics of landscapes the topography of isolation and integration the politics of imperialism globalization environmentalism as well as the power of language and narrative to turn space into place One of the major aims of the volume is to show that the world of the Classics is not just the origin but the essence of current debates on spatial constructions and reconstructions

The Return of Proserpina Sarah Spence, 2023-01-03 Sicily and the strategies of empire in the poetic imagination of classical and medieval Europe In the first century BC Cicero praised Sicily as Rome's first overseas province and confirmed it as the mythic location for the abduction of Proserpina known to the Greeks as Persephone by the god of the underworld The Return of Proserpina takes readers from Roman antiquity to the late Middle Ages to explore how the Mediterranean island offered authors a setting for forces resistant to empire and a location for displaying and reclaiming what has been destroyed Using the myth of Proserpina as a through line Sarah Spence charts the relationship Western empire held with its myths and its own past She takes an in depth panoramic look at a diverse range of texts set on Sicily demonstrating how the myth of Proserpina enables a discussion of empire in terms of balance loss and negotiation Providing new readings of authors as separated in time and culture as Vergil Claudian and Dante Spence shows how the shape of Proserpina's tale and perceptions of the island change from a myth of loss to one of redemption with the

volcanic Mt Etna playing an increasingly central role Delving into the ways that myth and geography affect politics and poetics The Return of Proserpina explores the power of language and the written word during a period of tremendous cultural turbulence Thunder and Lament Timothy A. Joseph,2022 Thunder and Lament is the first book length study of Lucan s engagement with the Homeric poems and the works of early Latin epic **Theological Anthropology and the Great Literary Genres** Michael P. Jensen,2019-08-23 The storytelling impulse lies very deep within human cultures indeed it is fundamental to the very concept of human culture itself What then is humankind according to the great story types of tragedy epic and comedy What do each of these genres say about us and what transcends us Building on critical discussions of the great genres of the Western literary tradition Michael P Jensen argues that each of these genres contains a theological anthropology a theological understanding of the human creature He then shows how questions of identity purpose and destiny are addressed within each genre concluding that human existence is a storied nature shaped by the various literary forms that have fostered human cultural imagination These genres provide crucial keys to vital anthropological and theological questions when put in conversation with Christian theology as Jensen shows the Christian story the gospel shares many observations about the human condition with the great genres but offers a different sense of ending
