*The Catholic Church and Politics in Nicaragua and Costa Rica* Philip J. Williams,2010-11-23 Unlike most recent studies of the Catholic Church in Latin America Philip J Williams analyzes the Church in two very dissimilar political contexts

Nicaragua and Costa Rica Despite the obvious differences Williams argues that in both cases the Church has responded to social change in remarkably similar fashion The efforts of progressive clergy to promote change in both countries have been largely blocked by Church hierarchy fearful that such change will threaten the Church s influence in society

**Addicted to Failure**

Brian Loveman,2006 For supplementary documentation and useful websites click here This perceptive book critically explores why the United States continues to pursue failed policies in Latin America What elements of the U S and Latin American political systems have allowed the Cold War the war on drugs and the war on terror to be conflated Why do U S policies ostensibly designed to promote the rule of law human rights and democracy instead contribute to widespread corruption erosion of government authority human rights violations and increasing destabilization Why have the war on drugs and the war on terror neither reduced narcotics trafficking nor increased citizen security in Latin America Why do Latin American governments the European Union and U S policymakers often work at cross purposes when they all claim to be committed to democratization and development in the region Leading scholars answer these questions by detailing the nature of U S economic and security strategies in Latin America and the Andean region since 1990 They analyze the impacts and responses to these strategies by policymakers political leaders and social movements throughout the region explaining how programs often generate or exacerbate the very problems they were intended to solve Reviewing official policy and its defenders and critics alike this indispensable book focuses on the reasons for the failure of U S policies and their disastrous significance for Latin America and the United States alike Contributions by Adri n Bonilla Pilar Gait n Monica Herz Kenneth Lehman Brian Loveman Enrique Obando Orlando J P rez Eduardo Pizarro Philipp Sch nrock Mart nez and Juan Gabriel Tokatlian

**Creating Pátzcuaro, Creating Mexico** Jennifer Jolly,2018-01-24 LASA Visual Culture Studies Section Book Prize Latin American Studies Association LASA Winner Arthur P Whitaker Prize Middle Atlantic Council of Latin American Studies 2019 In the 1930s the artistic and cultural patronage of celebrated Mexican president L zaro C rdens transformed a

small Michoacán city Pátzcuaro into a popular center for national tourism. Cárdenas commissioned public monuments and archeological excavations supported new schools, libraries, and a public theater developed tourism sites and infrastructure including the Museo de Artes e Industrias Populares and hired artists to paint murals celebrating regional history, traditions, and culture. The creation of Pátzcuaro was formative for Mexico not only did it provide an early model for regional economic and cultural development but it also helped establish some of Mexico's most enduring national myths, rituals, and institutions. In Creating Pátzcuaro Creating Mexico Jennifer Jolly argues that Pátzcuaro became a microcosm of cultural power during the 1930s and that we find the foundations of modern Mexico in its creation. Her extensive historical and archival research reveals how Cárdenas and the artists and intellectuals who worked with him used cultural patronage as a guise for radical modernization in the region. Jolly demonstrates that the Pátzcuaro project helped define a new modern body politic for Mexico in which the population was asked to emulate Cárdenas by touring the country and seeing and embracing its land, history, and people. Ultimately by offering Mexicans a means to identify and engage with power and privilege the creation of Pátzcuaro placed art and tourism at the center of Mexico's postrevolutionary nation building project.

**mente y conciencia** Alejandro Melo Florián, 2010 Decía Ortega y Gasset que el hombre es el hombre y sus circunstancias. Del mismo modo el autor nos conduce por los paisajes más diversos de la investigación sobre el sistema nervioso central precisamente sobre aquellos aspectos que afectan a lo más íntimo del ser humano como tal y de las circunstancias históricas en que los hitos del conocimiento neurocientífico se han ido produciendo. El libro generoso en citas y lebres resulta de lectura fácil y amena y conforme uno avanza en este viaje va descubriendo cómo nuevos enfoques son complementarios entre sí para comprender cómo del cerebro se desprenden sus dos principales productos derivados: la mente y la conciencia.

*¿Existen alternativas a la racionalidad capitalista?*

Crisóstomo, Pizarro Contador, 2020-01-31 Existen alternativas a la racionalidad capitalista. Otra manera de vivir y pensar ofrece una perspectiva de largo plazo para comprender la crisis del sistema mundo capitalista. Este sistema hoy está a punto de bifurcación histórica cuyo desenlace no podemos prever con certidumbre. A lo largo de 8 partes y 40 capítulos el libro no sólo diagnostica la crisis sino que además ofrece algunas ideas sobre otra manera de vivir y pensar que no son tan afines con la incansable acumulación de capital que define la esencia del sistema.
