Check Engine Light Rob Wilson, 2025-07-15 The gap between what really matters and what has become fitness as entertainment is growing wider by the day, and Rob is reaching across the divide with a steady hand. What we need is a framework, a model, a lens to help us make sense of it all. We need a dashboard, one that can help us better understand our inputs and outputs, our biology and our psychology, our feelings and our potential. Fortunately, we have Rob Wilson, Dr. Kelly Starrett, 3x New York Times Best Selling Author, *Physio* and *High Performance Coach*. Whether you're navigating minor concerns or major challenges, *Check Engine Light* will empower you to take control of your health and performance through expert guidance and an experimental mindset. Let's face it, we've all got a check engine light flashing. Maybe it's that low back pain you've had for years, or the emotional baggage that's collecting dust in your brain, or the growing fluffiness around your waistline, or maybe it's something you are not even sure whether to interpret as a warning signal. But all of us let things build up over time, and those things drag us down and keep us from living and performing at our best. Sometimes we know exactly why the light is flashing, but we either can't or won't slow down long enough to investigate. Other times we don't realize the light is flashing at all. Rob Wilson's *Check Engine Light* delivers a fresh approach to identifying these hidden and not-so-hidden signals, so you make more informed decisions about how you drive, when to perform maintenance, and when repairs might be due. Learning to tune into your indicators will give you the opportunity to tweak and adjust your habits and approaches to health, whatever they may be, before the car ends up on the
