Field Inspection Guide for Bridge Deck Cathodic Protection, 1988. This report is intended as a guide for inspectors who are unfamiliar with the construction procedures used when installing cathodic protection systems on reinforced concrete bridge decks. The text has been divided into sections in an effort to simplify the report and make it easier to locate desired information. The first four sections provide some basic background information about cathodic protection. Section V discusses a general system installation each of the major components are discussed to provide a basic understanding and act as a checklist during the installation process. Section VI discusses the various types of systems that have been installed to date. This is not intended to be an all inclusive manual. Rather it is to be used as a guide to help overcome some of the most common problems associated with the installation of cathodic protection systems. It is meant
