Clinical Data Abstraction

A vital role in reviewing patient records to extract clinical data points from healthcare and professional quality issues. This technique is used to assess and optimize organizational ability. Data abstraction involves reviewing and extracting information from various sources and may also take on seasonal contract work at various times throughout the year.

Abstraction is only sometimes necessary. Familiarity with clinical data is helpful. Some employers will train nurses in this field (many roles are more likely to train). Still, they may also hire individuals with prior clinical experience to do the abstraction or review.

Roles by nurses because the jobs can offer lots of schedule flexibility for those types of roles. Take the time to understand what you're doing and tailor your skill set to match those. You'll want to be able to manage time management, and any clinical data you will abstract.

Employers to see if they participate in any national programs such as NISQ (National Surgical Quality Improvement Program) or AHAQ (American Hospital Association). If you are not employed there, ask if they probably have better if you are employed - and to
