Cultures of Development Jonathan Warren, 2016-11-25 The North Atlantic development establishment has had a blemished track record over the past 65 years In addition to a sizeable portfolio of failure the few economic success stories in the developing world such as South Korea and China have been achieved by rejecting the advice of Western experts Despite these realities debates within mainstream development studies have stagnated around a narrow acultural emphasis on institutions or the size and role of government Cultures of Development uses a contrapuntal comparison of Vietnam and Brazil to show why it is important for development scholars and practitioners to broaden their conceptualization of economies to include the socio cultural This smartly written book based on original ethnographic research breathes new life into development studies by bringing cultural studies into conversation with development studies with an emphasis on improving rather than merely critiquing market economies The applied deployment of critical development studies i.e. interpretive economics results in a number of theoretical advances in both development and areas studies demonstrating the economic importance of certain kinds of cultural work carried out by religious leaders

artists activists and educators Most importantly the reader comes to fully appreciate how economies are embedded within the subjectivities discourses symbols rituals norms and values of a given society This pioneering book revives development practice and policy by offering fresh insights and ideas about how development can be advanced It will be of special interest to scholars and students of Development Studies Sociology Economics Anthropology and Area Studies **Annaes** São Paulo (Brazil : State). Congresso. Senado,1907 **Boletim bibliografico da Biblioteca Nacional do Rio de Janeiro** Biblioteca Nacional (Brazil),1919 **Doing Business 2015** World Bank,2014-10-24 Twelfth in a series of annual reports comparing business regulation in 189 economies Doing Business 2015 measures regulations affecting 10 areas of everyday business activity Starting a business Dealing with construction permits Getting electricity Registering property Getting credit Protecting minority investors Paying taxes Trading across borders Enforcing contracts Resolving insolvency Labor market regulations This year s report will present data for a second city for the 11 economies with more than 100 million inhabitants These are Bangladesh Brazil China India Indonesia Japan Mexico Nigeria Pakistan the Russian Federation and the United States Three of the 10 topics covered have been expanded with further plans to expand on five additional indicators in next year s report Additionally the Doing Business rankings are now based on the distance to the frontier measure where each economy is evaluated based on how close their business regulations are to the best global practices This provides a more precise view of each economy s performance and its improvement over time The report updates all indicators as of June 1 2014 ranks economies on their overall ease of doing business and analyzes reforms to business regulation identifying which economies are strengthening their business environment the most Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy It is a flagship product produced in partnership by the World Bank and IFC that garners worldwide attention on regulatory barriers to entrepreneurship More than 60 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground In addition the Doing Business data has generated over 2 000 articles in peer reviewed academic journals since its inception **Lessons from the Economics of Crime** Philip J. Cook,Stephen Machin,Olivier Marie,Giovanni Mastrobuoni,2013-10-04 Research from the United States Europe and South America demonstrates the usefulness of the tools of economic analysis for the study of crime Economists who bring the tools of economic analysis to bear on the study of crime and crime prevention contribute to current debates a normative framework and sophisticated quantitative methods for evaluating policy the idea of criminal behavior as rational choice and the connection of individual choices to aggregate outcomes The contributors to this volume draw on all three of these approaches in their investigations and discuss the policy implications of their findings Reporting on research in the United States Europe and South America the chapters discuss such topics as a cost benefit analysis of additional police hiring the testing of innovative policy interventions through field experiments imprisonment and recidivism rates incentives and disincentives for sports

hooliganism hooliganomics data showing the influence of organized crime on the quality of local politicians and the scant empirical evidence for the effect of immigration on crime These contributions demonstrate the eclectic approach of economists studying crime as well as their increasing respect for the contributions of other social scientists in this area
