Davis, Frank O'Hagan, 2014-10-23 This text offers a major reassessment of the life and thought of the distinguished 19th century industrial philanthropist and educational reformer Robert Owen In a period when Owen's radical new visions for learning and teaching adult and vocational pedagogy and social transformation are receiving fresh and global attention Robert Davis and Frank O'Hagan place Owen's thought right at the heart of the Enlightenment advocacy of popular democratic mass education Tracing both the ancestry and the legacy of Owen's reforming spirit they also offer a critical appraisal of the relevance of his ideas for the development of education at all levels and stages in the challenging contexts of international 21st century education

St Augustine Ryan N. S. Topping, 2014-10-23 After setting Augustine's thought firmly within the context of his life and times Ryan Topping examines in turn the causes of education the purposes pedagogy curriculum and limits of learning as Augustine understood them Augustine's towering influence over Medieval and Renaissance theorists from Hugh of St Victor to Aquinas to Erasmus is traced The book concludes by drawing Augustine into dialogue with contemporary philosophers exploring the influence of his meditations on higher education and suggesting how his ideas can reinvigorate for our generation the project of liberal learning **Jerome Bruner** David R. Olson, 2014-10-23 Jerome Bruner is the vanguard of the cognitive revolution in psychology and the predominant spokesman for the role of culture and education in the making of the modern mind In this text Olson encourages the reader to think about children as Bruner did not as bundles of traits and dispositions to be diagnosed and remediated but as thoughtful keenly interested agentive persons who are willing and indeed able to play an important role in their own learning and development Through the unique approach of combining commentary and conversation with Bruner the author provides an insight into what it is like to engage with one of the intellectual masters of our time and highlights the relevance and importance of his contribution to educational thinking today

States he had been seen both as saviour of American education by those who welcomed a more child centred curriculum and yet as worse than Hitler by those who saw his ideas as undermining traditional education an accusation shared by his detractors in Britain This account seeks to bring together Dewey s educational thinking and its frequently forgotten foundations in a pragmatic theory of meaning In so doing the book seeks to show that John Dewey is a philosopher of education for our time Jean-Jacques Rousseau Jurgen Oelkers,2014-10-23 Jean Jacques Rousseau enlightenment philosopher and founder of natural education is one of the most influential philosophers of education in the western world In order to fully understand Rousseau s impact as a true educational thinker Jurgen Oelkers argues that we must take into account his paradoxical style unique intellectual biography and his turbulent and unconventional way of life Combining historical analysis and contemporary ethical theory this text serves as both an introduction to Rousseau s theories of education and a critique of his views and shows how Rousseau was a pioneer in exploring educational issues within the context of his own philosophical problems in order to present innovative solutions **St Thomas Aquinas** Vivian Boland OP,2014-10-23 It may be surprising that the thought of a medieval theologian still informs many areas of intellectual debate but there continues to be lively interest in the work of Thomas Aquinas He considers the most radical questions for our thinking about education what is a human being what does it mean to learn what does it mean to teach what does it mean to know to understand and to search for the truth In this text Vivian Boland offers a short biography of Aquinas focused on his personal experiences as a student and teacher The book then provides a critical exposition of the texts in which Aquinas develops his views about education and includes a short account of the reception and influence of his thinking Finally it considers in some detail the most significant points of contact between Aquinas s educational thought and current concerns his conviction about the goodness of the world his holistic understanding of human experience and his contributions to virtue theory and highlights the continuing relevance and influence of this work and thinking within educational philosophy today
