Child Visitation Rights, Violation Notice

Dear _____:

The purpose of this Certified Letter is to remind you of the visitation provisions in our divorce decree or other court order. According to the divorce decree or other court order, visitation was granted as follows: _____
_____. To date, you have not complied with these child visitation provisions.

It is important for you to support the court's efforts to separate the children and visitation issues, from the other issues we may have between ourselves. Your continued practice of denying visitation is a form of Parental Alienation Syndrome (PAS), and this is not in the best interest of our child!

If I have not heard from you in writing within 20 days from the date of this letter, to commit to the child visitation rights as ordered by the court, I will be compelled to go into court and have you held in contempt.

Spending more time and money on this will not be to anyone's benefit. However, we both have responsibilities and legal rights as parents towards our child, so I will take this step if forced to by your non-compliance.

I hope this letter will help soften your judgment and permit the court ordered child visitations to happen as required by law.

Best regards,

Non-Custodial Parent

Letters of the Law Sora Y. Han, 2015-05-05 One of the hallmark features of the post civil rights United States is the reign of colorblindness over national conversations about race and law But how precisely should we understand this notion of colorblindness in the face of enduring racial hierarchy in American society In Letters of the Law Sora Y Han argues that colorblindness is a foundational fantasy of law that not only informs individual and collective ideas of race but also structures the imaginative capacities of American legal interpretation Han develops a critique of colorblindness by deconstructing the law's central doctrines on due process citizenship equality punishment and individual liberty in order to expose how racial slavery and the ongoing struggle for abolition continue to

haunt the law's reliance on the fantasy of colorblindness Letters of the Law provides highly original readings of iconic Supreme Court cases on racial inequality spanning Japanese internment to affirmative action policing to prisoner rights Jim Crow segregation to sexual freedom Han's analysis provides readers with new perspectives on many urgent social issues of our time including mass incarceration educational segregation state intrusions on privacy and neoliberal investments in citizenship But more importantly Han compels readers to reconsider how the diverse legacies of civil rights reform archived in American law might be rewritten as a heterogeneous practice of black freedom struggle *Strategic Imaginations* Anke Gilleir, Aude Defurne, 2020-12-15 Imaginations of female rule and the imaginative strategies of women rulers What is the gender of political power What happens to the history of sovereignty when we reconsider it from a gender perspective Political sovereignty has been a major theme in European thought from the very beginning of intellectual reflection on community Philosophy and political theory historiography theology and literature and the arts have often in dialogue with one another sought to represent or recalibrate notions of rule Yet whatever covenant was imagined sovereign rule has consistently been figured as a male prerogative While in depth studies of historical women rulers have proliferated in the past decades these have not systematically explored how all women rulers throughout the entirety of European culture have had to operate in a context that could not think power as female except in grotesque terms Strategic Imaginations demonstrates that this constitutive tension can only be brought out by studying women's political rule in a comparative and longue durée manner The book offers a collection of essays that brings together studies of female sovereignty from the Polish Lithuanian to the British Commonwealth and from the Middle Ages to the genesis of modern democracy It addresses historical figures and takes stock of the rich yet unsettling imagination of female rule in philosophy literature and art history For all the variety of geographical social and historical contexts it engages the book reveals surprising resonances between the strategies women rulers used and the images and practices they adopted in the context of an all pervasive skepticism toward female rule **The Everything Parent's Guide to Special Education** Amanda Morin, 2014-05-18 Children with special needs who succeed in school have one thing in common Their parents are passionate and effective advocates This valuable handbook explains how to evaluate prepare organize and get quality services no matter what a child's disability Includes worksheets forms and sample documents and letters The Fathers Guide to Custody and Divorce H.V.
