recently started to attract the attention of scholars business leaders and politicians research on the implications of the demographic change on businesses is still in its infancy Most accounts of the so called demographic problem deal as the term already suggests with the challenges and threats of the demographic development These discussions feature for example the shrinking workforce welfare effects social conflicts etc At the same time chances and opportunities are often neglected The emergence of new markets the potential for innovations the integration of older people into jobs and work places the joy of active aging and their varied roles within society are just a few examples of how what at first sight appears to be a crisis could be turned into an opportunity All in all countries and industries are reacting very differently from still neglecting to proactively looking for and developing solutions
