rapidly changing country This book analyzes the ways in which the practices and discourses of domestic service serve to forge and contest emerging class identities in post reform Vietnam Drawing on a rich and diverse range of qualitative data including ethnographies interviews and narratives it shows that such practices and discourses are rooted in cultural notions of gender and rural urban difference and enduring socialist structures of feeling which in turn clash with the realities of growing differentiation Domestic workers experiences reveal negotiations with class boundaries actively set by the urban middle class who seek distinction through emerging notions and practices of domesticity These boundaries are nevertheless riddled with gender and class anxiety on the side of the latter partly because of the very struggles and contestations of the domestic workers More broadly Minh T N Nguyen links the often invisible intimate dynamics of class formation in the domestic sphere with wider political economic processes in a post socialist country embarking on marketization while retaining the political control of a party state As a pioneering ethnographic study of domestic service in Vietnam today this book will be of great interest to students and scholars of Southeast Asian culture society social anthropology gender studies human geography and development studies **Bedford's Tech Edge** ,2003 PC Mag ,2004-04-06 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology Daily Graphic Yaw Boadu-Ayeboafah,2006-06-07 Maximum PC ,2008 Maximum PC is the magazine that every computer fanatic PC gamer or content creator must read Each and every issue is packed with punishing product reviews insightful and innovative how to stories and the illuminating technical articles that enthusiasts crave **People** ,2003-10 Screen Digest ,2001
