

The offshore inspection vehicle with enhanced interface capability

Like the smaller Tiger, the Lynx is a leading observation and inspection vehicle used by the oil and gas industry especially for missions in water depths to 1,500m.

The Lynx is fitted with two vertical and four horizontal thrusters making it a very stable platform with exceptional manoeuvrability.

A wide range of tools and sensors are available as well as interchangeable tooling skids, which are powered by a dedicated tooling power supply unit.

The Lynx vehicle is available as a free swimmer or can operate in conjunction with a Type B Tether Management System (TMS).

Trusted

Six thrusters provide a stable platform with an increase in vertical thrust for deep water and platform inspection projects.

Enhanced data transmission

Fibre optic data and video transmission with up to four simultaneous video channels available including an HD camera option.

Flexible

Tooling options designed to deliver results even for the most challenging of projects.
