Hall,2007-08-08 We woke up early and excited It is June 1st and we have been on the road since May 15th In the back of our minds always lurks Oh God What have we done All our hopes and fears of someday are here Our house is sold all the money we have is with us Everything that is left is in the truck and trailer The only direction we can go from here is up and we have never been happier After my quite reflection of the past I realize that today we will see our new if temporary home Jo Jurgeliet has found us a place to rent It s an A frame about 20 x24 It was high up at mile 8.5 out of town No need to worry about the utilities there weren t any to speak of A propane bottle ran the stove refrigerator and water heater A fuel oil stove kept it warm and running water was a series of hoses going up the mountain behind the place and it was gravity flow from a stream up there There was no electricity or phone I finally decided that what didn t kill me would make me stronger and it did We were an awful sight that morning After some coffee and cereal we are headed home We are headed west from Whitehorse Yukon to Haines Junction It is 100 miles and the Milepost told us there are no gas stations in that stretch so we make sure the tank is full It took about 3 hours It was so quite you could imagine what it was like 100 years ago I think we were all reflecting on what the day would bring I am sure our poor cat Kitty Poo had decided he was going to spend the rest of his life in the back of the pickup truck We had never seen an extended cab in 1974 and with 4 of us in that front seat there was no room for the cat In all our travels in Alaska I have never seen a place more naturally beautiful that that stretch from Haines Junction going into Haines The only thing that compares to it is topping Baycrest Hill going into Homer so keep reading Our jobs and fits of exploring took us from Juneau Haines Homer Kodiak the Aleutian Islands to Fairbanks and south to Valdez and many other places in between so believe me this is spectacular The first major body of water is Kathleen Lake There are mountains of the

St Elias and Wrangell ranges all snow covered and glowing in the sun There appears to be a lot of places set aside for camping About 15 miles south there is Dezadeash Lake and the Dezadeash Mountain Range Over the years the lodge and the German family running it were important to us Katie and Heinz ran the lodge bar gas station and garage with only a generator for power and the food could put many 4 Star restaurants to shame The road in front of us looks like a long winding snake On this June 1st there are still walls of snow on both sides of the road I insist we stop so I can take some pictures and I am glad we did In all the years and many more trips since I have never seen the walls of snow and ice we saw that day The wind is howling and we are climbing That poor truck is struggling with the load On we went and finally made the summit of Chilkat Pass over 6 000 feet the highest on the road The wind blows constantly and it did not take long to figure out the 12 poles along the road were markers so the snow equipment knew where the road was There are a lot of closures in winter As you travel along toward Haines in a short distance you see The Three Guardsmen and it is a sight to behold The mountains all white in the sun are directly behind the lake About 10 miles south of there is the old US Army pipeline For years it pumped oil from Haines over the St Elias Mountains to the Alaska Highway at Haines Junction in the Yukon We crossed the border from the Yukon into British Columbia about 40 miles ago Here we are at last at Pleasant Camp It is the Canadian Custom checkpoint and we are about to cross over into Alaska at last It s the only road into Haines and is 42 more miles of mountains

Bicycling Science, third edition David Gordon Wilson, 2004-03-19 A new updated edition of a popular book on the history science and engineering of bicycles The bicycle is almost unique among human powered machines in that it uses human muscles in a near optimum way This new edition of the bible of bicycle builders and bicyclists provides just about everything you could want to know about the history of bicycles how human beings propel them what makes them go faster and what keeps them from going even faster The scientific and engineering information is of interest not only to designers and builders of bicycles and other human powered vehicles but also to competitive cyclists bicycle commuters and recreational cyclists The third edition begins with a brief history of bicycles and bicycling that demolishes many widespread myths This edition includes information on recent experiments and achievements in human powered transportation including the ultimate human powered vehicle in which a supine rider in a streamlined enclosure steers by looking at a television screen connected to a small camera in the nose reaching speeds of around 80 miles per hour It contains completely new chapters on aerodynamics unusual human powered machines for use on land and in water and air human physiology and the future of bicycling This edition also provides updated information on rolling drag transmission of power from rider to wheels braking heat management steering and stability power and speed and materials It contains many new illustrations

Snowblowers in Miami? Steven D. Goldstein, 2016-09-06 Whether it's having snowblowers for sale in a place where it never snows or a more pervasive issue like having so many meetings scheduled there's no time left to actually solve any problems dysfunction within large organizations is so prevalent that most people either accept it as an inevitable fact of corporate life or assume someone else will deal with it But must it be this way Goldstein's answer to this is a resounding No In *Why Are There Snowblowers in Miami* he explains the nature of dysfunction present in most companies and other organizations why it occurs and most importantly what leaders at all levels can do to tackle these issues and improve performance As a senior executive for a major department store chain Steve Goldstein was shocked to find snowblowers for sale at the company's Miami store When Goldstein asked a salesman on the floor how long this had been going on he replied I've been here for thirty years and we've been getting them since I've been here For Goldstein this one snowblower experience crystallizes all the dysfunction he has seen in business over the course of his career A seasoned business leader with more than three decades of experience he has discovered that almost all dysfunction is caused by a lack of engagement and that it is fixable Goldstein outlines his unique Five Principles of Engagement and demonstrates how top level leaders can and should use them to improve the way they interact with their teams employees and customers He offers pragmatic proven techniques for solving problems most leaders face including a revolutionary time saving meeting model a new process for making more efficient decisions with all participants having greater accountability a new system that impels leaders to really know their employees and customers and other ground breaking tools Inspiring entertaining and refreshingly honest *Why Are There Snowblowers in Miami* is filled with true stories from the author's own experience as well as anecdotes and insights culled from interviews he has conducted with some of the world's most influential CEOs From these real life examples readers will learn how understanding and utilizing the Five Principles of Engagement can lead to powerful and positive change in their own organizations and in their lives
