The Illustrated Guide to Assistive Technology & Devices Suzanne Robitaille, 2009-12-08 A Doody's Core Title 2012
This new illustrated guide to assistive technologies and devices chronicles the use of AT/AD technology used by individuals with disabilities to perform functions that might otherwise be difficult or impossible. This book empowers people to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It includes real life examples about how people with disabilities are using assistive technology AT to assist them in daily tasks and discusses emotional issues related to AT/AD.

The Illustrated Guide to Assistive Technology and Devices Suzanne Robitaille, 2010
This book is an illustrated guide to assistive technologies and devices AT/AD. It chronicles the use of AT/AD technology used by individuals with disabilities to perform functions that might otherwise be difficult or impossible. In general, AT can include mobility devices such as walkers and wheelchairs as well as hardware, software, and peripherals that assist people with disabilities in accessing computers or other information technologies. Advanced AT has coincided with the advent of personal electronic devices that could be customized for use such as computers and smart phones. For people with disabilities, AT includes simple gadgets for the home and office, electronic gadgets, and complex computer systems for the workplace, mobility aids, and accessible vans for getting around, and modified equipment for lifestyle needs such as talking ATMs and strobe light alarm systems. This book empowers people with disabilities to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It includes real life examples about how people with disabilities are using assistive technology AT to assist them in daily tasks and discusses emotional issues related to AT/AD.

Mobile Learning M. Pegrum, 2014-07-23
This book explores the use of mobile devices for teaching and learning language and literacies, investigating the ways in which these technologies open up new educational possibilities. Pegrum builds up a rich picture of contemporary mobile learning and outlines of likely future developments.

The cell phone is the fastest selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile multipurpose mobile devices including 3G Internet enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS), and satellite radio will soon create an entertainment, navigation, and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory, and logistics at all levels from manufacturing to

shipping to retailing These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers Plunkett s Wireless Wi Fi RFID Cellular Industry Almanac 2008 covers such sectors Our coverage includes business trends analysis and industry statistics We also include a wireless and cellular business glossary and a listing of industry contacts such as industry associations and government agencies Next we profile hundreds of leading companies Our 350 company profiles include complete business descriptions and up to 27 executives by name and title
